Backwoodsmen as Ecocritical Motif in French Canadian Literature Anne Rehill,2016-08-30 In New France and early Canada young men who ventured into the forest to hunt and trade with Amerindians coureurs de bois runners of the woods later traveling in big teams of canoes voyageurs were known for their independence Often described as half wild themselves they linked the European and Indian societies eventually helping to form a new culture with elements of both From an ecocritical perspective they represent both negative and positive aspects of the human historical trajectory because in addition to participating in the environmentally abusive fur trade they also symbolize the way forward through intercultural connections and business relationships The four novels analyzed here Joseph Charles Tach s Forestiers et voyageurs Moeurs et l gendes canadiennes 1863 Louis H mon s Maria Chapdelaine 1916 L o Paul Desrosiers Les Engag s du Grand Portage 1938 and Antonine Maillet s P lagie la Charrette 1979 portray the backwoodsmen operating in a collaborative mode within the realistic context of the need to make money They entered folklore through the 19th century literary efforts of Tach and others to construct a distinct French Canadian national identity then in an unstable and continually disrupted process of formation Their entry into literature necessarily brought their Amerindian business and personal partners thus making intercultural connections a foundation of the national identity that Tach and others strove to construct and also mirror As figures in literature they embody changing ideas of the self and of the cultures and ethnicities that they connect both physically and in an abstract sense Because constructions of self identity result in behavior studying this dynamic contributes to ecocritical efforts to better understand human behavior toward both ourselves and our environment The woodsmen and their Amerindian partners occupy the intriguing position of

contributing to both damage and greater acceptance of the cultural Other the latter of which holds the promise of collaboration and joint searches for sustainable solutions Thus coureurs de bois and voyageurs far from perfect models can continue to serve as guides today
