

Movement and Infants

By Rae Pica

Besides the fact that they were built to do so, there are a great many reasons why infants need to move. The truth is, even though their movement capabilities are extremely limited when compared with even those of a toddler, movement experiences may be more important for infants than for children of any other age group. And it's not all about motor development either.

Thanks to new insights in brain research, we now know that early movement experiences are considered essential to the neural stimulation (the "use-it-
