HERBERT J. MILES

Sexual Understanding Before Marriage

Horatio Willis Dresser

Sexual Understanding Before Marriage:

Sexual Understanding Before Marriage Herbert J. Miles, 1986-12 **Sexual Understanding Before Marriage** Herbert Jackson Miles, 1972 *Sexual Understanding Before Marriage... Introd. Y... Paul Popenoe,....* Herbert J. Miles, 1972 *The Psychology of Sex (Vol. 1-6)* Havelock Ellis, 2022-12-10

Havelock Ellis's monumental work *The Psychology of Sex* spans six volumes offering an exhaustive exploration of sexual behavior, identity, and societal norms through a blend of psychological analysis and cultural critique. Written in the late 19th and early 20th centuries, Ellis's pioneering approach intertwines scientific inquiry with a narrative style that is both accessible and richly detailed. This seminal text not only maps the biological and psychological underpinnings of human sexuality but also delves into broader themes of gender, morality, and the impact of societal constraints on sexual expression, positioning the work within the burgeoning field of sexology during a time of great socio-political change.

Havelock Ellis, a prominent English physician and social reformer, brought a radical lens to topics often shrouded in taboo. His progressive views on sexuality, influenced by the early feminist movement and his collaboration with contemporary thinkers, shed light on the complexities of sexual identity and human behavior. Ellis's combination of clinical observation and humanistic philosophy reflects his commitment to destigmatizing sexual discourse, a mission that deeply informed his writing process.

This landmark series is essential reading for anyone interested in the evolution of sexual psychology and the cultural implications of sexual identity. Ellis's insightful analysis resonates with contemporary discussions surrounding sexuality and offers historical context crucial for understanding modern perspectives. Readers will find themselves compelled by Ellis's lucid prose and thorough research, making this work an indispensable addition to both academic and personal libraries.

In this enriched edition, we have carefully created added value for your reading experience. A succinct Introduction situates the work's timeless appeal and themes. The Synopsis outlines the central plot, highlighting key developments without spoiling critical twists. A detailed Historical Context immerses you in the era's events and influences that shaped the writing. A thorough Analysis dissects symbols, motifs, and character arcs to unearth underlying meanings. Reflection questions prompt you to engage personally with the work's messages, connecting them to modern life. Hand-picked Memorable Quotes shine a spotlight on moments of literary brilliance. Interactive footnotes clarify unusual references, historical allusions, and archaic phrases for an effortless, more informed read.

Studies in the Psychology of Sex VI: Sex in Relation to Society Havelock Ellis, 2016-08-25

The origin of these *Studies* dates from many years back. As a youth, I was faced, as others are by the problem of sex. Living partly in an Australian city where the ways of life were plainly seen, partly in the solitude of the bush, I was free both to contemplate and to meditate many things. A resolve slowly grew up within me, one main part of my life work should be to make clear the problems of sex. That was more than twenty years ago. Since then I can honestly say that in all that I have done that resolve has never been very far from my thoughts. I have always been slowly working up to this central problem, and in a book published some three years ago, *Man and Woman*, a

Study of Human Secondary Sexual Characters I put forward what was in my own eyes an introduction to the study of the primary questions of sexual psychology Now that I have at length reached the time for beginning to publish my results these results scarcely seem to me large As a youth I had hoped to settle problems for those who came after now I am quietly content if I do little more than state them For even that I now think is much it is at least the half of knowledge In this particular field the evil of ignorance is magnified by our efforts to suppress that which never can be suppressed though in the effort of suppression it may become perverted I have at least tried to find out what are the facts among normal people as well as among abnormal people for while it seems to me that the physician s training is necessary in order to ascertain the facts the physician for the most part only obtains the abnormal facts which alone bring little light I have tried to get at the facts and having got at the facts to look them simply and squarely in the face If I cannot perhaps turn the lock myself I bring the key which can alone in the end rightly open the door the key of sincerity That is my one panacea sincerity

Studies in the Psychology of Sex v6 Havelock Ellis, 2015-11-07 A man s sexual nature like all else that is most essential in him is rooted in a soil that was formed very long before his birth In this as in every other respect he draws the elements of his life from his ancestors however new the recombination may be and however greatly it may be modified by subsequent conditions A man s destiny stands not in the future but in the past That rightly considered is the most vital of all vital facts Every child thus has a right to choose his own ancestors Naturally he can only do this vicariously through his parents It is the most serious and sacred duty of the future father to choose one half of the ancestral and hereditary character of his future child it is the most serious and sacred duty of the future mother to make a similar choice 1 In choosing each other they have between them chosen the whole ancestry of their child They have determined the stars that will rule his fate In the past that fateful determination has usually been made helplessly ignorantly almost unconsciously It has either been guided by an instinct which on the whole has worked out fairly well or controlled by economic interests of the results of which so much cannot be said or left to the risks of lower than bestial chances which can produce nothing but evil In the future we cannot but have faith for all the hope of humanity must rest on that faith that a new guiding impulse reinforcing natural instinct and becoming in time an inseparable accompaniment of it will lead civilized man on his racial course Just as in the past the race has on the whole been moulded by a natural and in part sexual selection that was unconscious of itself and ignorant of the ends it made towards so in the future the race will be moulded by deliberate selection the creative energy of Nature becoming self conscious in the civilized brain of man This is not a faith which has its source in a vague hope The problems of the individual life are linked on to the fate of the racial life and again and again we shall find as we ponder the individual questions we are here concerned with that at all points they ultimately converge towards this same racial end Since we have here therefore to follow out the sexual relationships of the individual as they bear on society it will be convenient at this point to put aside the questions of ancestry and to accept the individual as with hereditary constitution already determined he lies
