Service Coordination in Early Intervention

Service coordination is a mandated part of early intervention under the Individuals with Disabilities Education Act (IDEA, 2004 Section 34 CFR 303.23). The federal law lists the functions the service coordinator is responsible for including coordinating all services across agency lines and serving as the single point of contact in helping parents to obtain the services and assistance they need.

According to IDEA Service coordination is an active, ongoing process that involves

- Assisting parents of eligible children in gaining access to the early intervention services and other services identified in the individualized family service plan
- Coordinating the provision of early intervention services and other services (such as medical services for other than diagnostic and evaluation purposes) that the child needs or is being provided
- Facilitating the timely delivery of available services
- Continuously seeking the appropriate services and situations necessary to benefit the development of each child being served for the duration of the child's eligibility

The activities of service coordination include

- Coordinating the performance of evaluations and assessments
- Facilitating and participating in the development, review, and evaluation of individualized family service plans
- Assisting families in identifying available service providers
- Coordinating and monitoring the delivery of available services
- Informing families of the availability of advocacy services
- Coordinating with medical and health providers
