**scripture in Theravāda Buddhism'** Ninian Smart,2009 Ninian Smart came to public prominence as the founding Professor  
of the first British university Department of Religious Studies in the late 1960s His pioneering views on education in religion  
proved hugely influential at all levels from primary schools to academic teaching and research An unending string of  
publications many of them accessible to the general public sustained a reputation that became worldwide Here for the first  
time a selection of Ninian Smart s wide ranging writings is organised systematically under a set of categories which both  
comprehend and also illuminate his varied output over a career spanning half a century The editor John Shepherd was  
Principal Lecturer in Religion and Philosophy at the University of Cumbria He first met Smart as a postgraduate student and  
recently helped establish the Ninian Smart Archive at the University of Lancaster      *The God/Man/World Triangle* R.  
Crawford,1997-10-06 Why is there a world Does it reflect the presence of God in any way Did the world spontaneously come  
into existence or is there a creator How will it end Does God Exist Do religions give a coherent view of His existence and  
nature Can we enter into relation with Him Robert Crawford tries to answer these and other questions by arguing that  
religion and science complement one another and while they use different sources and methods insights can be gleaned from  
both concerning our nature the world and God Major attention is given to Christianity because modern science arose in that  
context but the discussion includes the teachings of five other religions in the hope that we can also learn from them

**Darkness** Armin Lange,Eric M. Meyers,Randall Styers,2010-11-17 Light Against Darkness is comprised of articles that put  
on display the power and pervasiveness of dualistic thought Dualism has proved a potent cultural tool for clarifying and  
ordering reality Particularly in times of social stress and psychological insecurity it can offer a valuable conceptual grid that  
provides orientation to the world and a clear sense of identity At the same time though there are important questions to be  
asked about the social effects of binary thinking As history amply illustrates dualistic notions can readily be deployed to  
legitimate cultural demonization and to rationalize violence At a deeper level a dualist worldview can also obscure the  
possibilities to be found in multiplicity The articles in this volume treat Dualism across a wide historical spectrum and from

multiple methodological perspectives The studies are organized around the religious and cultural contexts of Ancient Judaism and they include contributions from leading voices on ancient Persia Israel Greece and Egypt Experts on modern religious and philosophical thought not only lend context to concepts applied to the ancient world but engage recent European and American experiments in binary thought All of the studies contribute to a richer and more complete portrait of dualism in ancient Judaism
