Women and Portraits in Early Modern Europe Andrea Pearson, 2016-12-05 As one of the first books to treat portraits of early modern women as a discrete subject this volume considers the possibilities and limits of agency and identity for women in history and with particular attention to gender as categories of analysis for women's images Its nine original essays on Italy the Low Countries Germany France and England deepen the usefulness of these analytical tools for portraiture Among the book's broad contributions it dispels false assumptions about agency's possibilities and limits showing how agency can be located outside of conventional understanding and conversely how it can be stretched too far It demonstrates that agency is compatible with relational gender analysis especially when alternative agencies such as spectatorship are taken into account It also makes evident the importance of aesthetics for the study of identity and agency The individual essays reveal among other things how portraits broadened the traditional parameters of portraiture explored transvestism and same sex eroticism appropriated aspects of male portraiture to claim those values for their sitters and as sites for gender negotiation resistance and debate invoked considerable relational anxiety Richly layered in method the book offers an array of provocative insights into its subject [Berkshire News](#), 1941 [Morning Telegraph's Racing Chart Book](#), 1904 [The Nine Days' Queen, Lady Jane Grey, and Her Times](#) Richard Davey, 1910 *The Nine Days' Queen, Lady Jane Gray, and Her Times* Richard Davey, 1909 **Official Catalog** Chicago (Ill.). Bender, 2011-02-23

At the beginning of the twentieth century industrialization both dramatically altered everyday experiences and shaped debates about the effects of immigration empire and urbanization. In *American Abyss* Daniel E. Bender examines an array of sources: eugenics theories, scientific studies of climate, socialist theory, and even popular novels about cavemen to show how intellectuals and activists came to understand industrialization in racial and gendered terms as the product of evolution and as the highest expression of civilization. Their discussions, he notes, are echoed today by the use of such terms as the developed and developing worlds. American industry was contrasted with the supposed savagery and primitivism discovered in tropical colonies, but observers who made those claims worried that industrialization by encouraging immigration, child and women's labor, and large families was reversing natural selection. Factories appeared to favor the most unfit. There was a disturbing tendency for such expressions of fear to favor eugenicist remedies. Bender delves deeply into the culture and politics of the age of industry. Linking urban slum tourism and imperial science with immigrant better baby contests and hoboes, *American Abyss* uncovers the complex interactions of turn-of-the-century ideas about race, class, gender, and ethnicity. Moreover, at a time when immigration again lies at the center of American economy and society, this book offers an alarming and pointed historical perspective on contemporary fears of immigrant laborers.
