

REFORMING REGULATION: PROBLEMS AND PROSPECTS IN QUEENSLAND

Peter Casey *

The question that this paper seeks to address is whether or not the desired objective of regulatory reform, a key focus of the national macro economic reform agenda, can be implemented. Recent Queensland experience suggests that the probability of achieving successful regulatory reform is quite low, for a variety of reasons.¹

The Queensland government has embarked on an ambitious process of reform of all policy, legislation, and regulation affecting business in Queensland. The administrative focus of this reform process is the Business Regulation Review Unit (BRRU) of the Department of Business, Industry and Regional Development (DBIRD). The unit, in conjunction with all relevant government departments, has three broad objectives:

- to systematically review business regulations and legislation;
- to investigate complaints about business regulations; and
- to promote the harmonisation of business regulations between the commonwealth and the states (Smith 1991, p.6) with an overall goal of achieving "minimum regulatory interference with maximum community protection" (DBIRD 1991a, p.2).

The program is based on the notion that departments should review their regulatory regimes as part of their normal management process. Each chief executive has submitted a detailed program for the review of all relevant legislation and other regulatory activities which impact on the business sector. Each program was developed in consultation with the BRRU and, prior to finalising a consolidated review

program for cabinet's consideration, the unit consulted with the Queensland Business and Industry Council (QBIC) (an advisory body established by the Goss government in its first term, 1989-92) and industry associations to ensure that the priorities of the business sector were taken into account. The unit then undertook the preparation of a coordinated, government-wide review program for cabinet consideration (see DBIRD 1991b for details of the program).

The entire program of review is to be completed by 31 December 1994 with the unit responsible for its administration, including the provision of training staff as necessary. No additional staff or resources are allocated for the departmental review program. Each chief executive will provide a six-monthly summary of reviews completed, progress on incomplete reviews and reviews to be commenced, with the BRRU reporting on progress to cabinet at regular intervals. Individual reviews will not be accepted as complete until the BRRU certifies that an approved review process has been followed and the relevant review program is in accordance with the objectives of the program. While there is no single, prescriptive format for the provision of certification, the unit will be looking, for example, for details on:

- detailed arguments as to why the regime should not be repealed;
- details of the evaluative process;
- consultative processes undertaken;
- the implementation plan; and
- indications of savings and costs accruing to the public and private sectors as a result of the proposed changes.

* Senior Lecturer in the School of Economics and Public Policy, Queensland University of Technology.

Reforming Regulation Processes And Problems

Lawrence J. White

Reforming Regulation Processes And Problems:

Reforming Regulation Lawrence J. White,1981
Challenges and Reforms of Economic Regulation in MENA Countries Imed Limam,2003 Focuses on the challenges faced by MENA economies to improve their competitiveness in the world economy
Reforming Regulation Roger G. Noll,2010-12-01 Many observers agree that federal regulation of business often fails to prevent monopoly profits promote technological change or protect consumers against market abuses Why President Nixon assigned the task of proposing reforms to his Advisory Council on Executive Organization called the Ash Council after its chairman Roy L Ash The object of both the Council s report and this paper is to advance the public search for reform The council suggested that a leading cause of regulatory failure lies in the organization of regulatory agencies This analysis leads to an alternative view that the regulatory process is inherently flawed regardless of agency organization and the real sources of weakness may be laws establishing regulatory mandates and the political environment in which regulation operates Drawing on the insights of economists political scientists and lawyers the author examines a number of federal regulatory agencies and views their performance in the light of regulatory theory He prescribes no remedies but suggests the route to be followed if regulation is to approach its economic and social goals Regulatory Reform Act--S. 1080 United States. Congress. Senate. Committee on the Judiciary. Subcommittee on Regulatory Reform,1982 *Reforming Regulation* Economic Council of Canada,1981 Economic policy regulations Canada transport telecommunications agricultural sector environmental protection occupational health and occupational safety employment agricultural marketing fisherys etc Recommendations Graphs and references States rights, moratoria, and NRC licensing reforms United States. Congress. House. Committee on Interior and Insular Affairs. Subcommittee on Energy and the Environment,1977 *Federal Regulatory Reform Programs and the Use of Cost-benefit Analysis* ,1984 **Reforming Regulation** Timothy B. Clark,Marvin H. Kusters,James Clifford Miller,1980 **Reforming the Regulation of Electric Utilities** Richard L. Gordon,1982 *Reform of Environmental Regulation* Wesley A. Magat,1982 **Bureaucratic Politics and Regulatory Reform** Brian Cook,1988-01-13 Based on interviews with key EPA decision makers and an analysis of the public record this informative case study demonstrates how the contemporary movement for regulatory reform has actually affected the internal organizational politics of a highly visible administrative agency The volume offers an in depth look at how a specific agency effort at regulatory reform can be drastically influenced by the machinations of bureaucratic politics Evidence is offered to support Cook s claim in contrast to conventional views that senior political and career leadership has considerable influence over the policy direction of an administrative agency **Proceedings of the ... Annual Iowa State University Regulatory Conference on Public Utility Valuation and the Rate Making Process** ,1980 **Occupational Licensing & Regulation** Kim Duhart,1983 *Proceedings of the ... Annual Iowa State Regulatory Conference on Public Utility Valuation and the Rate Making Process* ,1981 **Quantitative Risk Assessment in Regulation** Lester B. Lave,1982

Exemplary stories of innovation from around the world In an age of rising inequality getting a good education increasingly separates the haves from the have nots In countries like the United States getting a good education is one of the most promising routes to upper middle class status even more so than family wealth Experts predict that by 2030 825 million children will reach adulthood without basic secondary level skills and it will take a century for the most marginalized youth to achieve the educational levels that the wealthiest enjoy today But these figures do not even account for the range of skills and competencies needed to thrive today in work citizenship and life In a world where the ability to manipulate knowledge and information think critically and collaboratively solve problems are essential to thrive access to a quality education is crucial for all young people In Leapfrogging Inequality researchers chart a new path for global education by examining the possibility of leapfrogging harnessing innovation to rapidly accelerate educational progress to ensure that all young people develop the skills they need for a fast changing world Analyzing a catalog of nearly 3 000 global education innovations the largest such collection to date researchers explore the potential of current practices to enable such a leap As part of this analysis the book presents an evidence based framework for getting ahead in education which it grounds in the here and now by narrating exemplary stories of innovation from around the world Together these stories and resources will inspire educators investors leaders of nongovernmental organizations and policymakers alike to rally around a new vision of educational progress one that ensures we do not leave yet another generation of young people behind

Nuclear Politics in America Robert J. Duffy, 1997 The promise and peril of nuclear power have been a preoccupation of the modern age Robert Duffy now examines the politics of nuclear power over the last 50 years relating broad trends in American politics to changes in the regulation of the nuclear industry to show how federal policies in this area have been made implemented and altered

The Politics of Regulatory Change Richard A. Harris, Sidney M. Milkis, 1989 The past three decades have brought remarkable change in American regulatory politics The re emergence of public interest movements in the sixties and seventies raised fundamental questions about our market economy and dramatically expanded the government's regulatory role in the protection of public health the consumer and the environment The far reaching effects of this new regulatory regime in turn precipitated a counter movement to restrict social and economic regulation spearheaded by the Reagan administration In their first edition of The Politics of Regulatory Change Richard Harris and Sidney Milkis assessed the long term consequences of the Reagan administration's attempt to drastically curtail social regulation through an in depth study of how two of the most influential regulatory agencies the Federal Trade Commission and the Environmental Protection Agency were affected by administration reforms Now with their second edition Harris and Milkis continue their assessment creating a completely revised edition that includes coverage of the changes in regulatory politics during the Bush and Clinton administrations They conclude that the essential elements of the public lobby regime remain intact even as the successive deregulatory assaults on that regime in the 1980 s and 1990 s have polarized Washington not simply over public policy but

more fundamentally over the just ends of the American political system **Regulation and Its Reform** Stephen Breyer, 1982-01-12 On its Surface this book is aimed at the topical issue of regulatory reform But underneath it strives to go beyond the topical seeking to analyze regulation as a distinct discipline and to help teach it as a separate subject *Yale Journal on Regulation* Yale Law School, 1986 **Regulatory Reform in the Global Economy** , 1998 As border barriers to international trade and investment continue to be reduced thanks to liberalisation efforts behind the border barriers which are typically regulations aiming at achieving domestic objectives such as health safety environmen

Whispering the Strategies of Language: An Emotional Quest through **Reforming Regulation Processes And Problems**

In a digitally-driven earth where displays reign great and immediate transmission drowns out the subtleties of language, the profound secrets and psychological subtleties hidden within phrases frequently get unheard. However, situated within the pages of **Reforming Regulation Processes And Problems** a charming fictional value sporting with raw thoughts, lies an extraordinary quest waiting to be undertaken. Composed by a talented wordsmith, this marvelous opus attracts viewers on an introspective trip, gently unraveling the veiled truths and profound influence resonating within ab muscles material of each and every word. Within the psychological depths of the poignant review, we can embark upon a genuine exploration of the book is core styles, dissect its fascinating writing type, and succumb to the effective resonance it evokes serious within the recesses of readers hearts.
