Saxon Britain:

The Anglo-Saxons Marc Morris,2021-05-25 A sweeping and original history of the Anglo Saxons by national bestselling author Marc Morris Sixteen hundred years ago Britain left the Roman Empire and swiftly fell into ruin Grand cities and luxurious villas were deserted and left to crumble and civil society collapsed into chaos Into this violent and unstable world came foreign invaders from across the sea and established themselves as its new masters The Anglo Saxons traces the turbulent history of these people across the next six centuries It explains how their earliest rulers fought relentlessly against each other for glory and supremacy and then were almost destroyed by the onslaught of the vikings It explores how they abandoned their old gods for Christianity established hundreds of churches and created dazzlingly intricate works of art It charts the revival of towns and trade and the origins of a familiar landscape of shires boroughs and bishoprics It is a tale of famous figures like King Offa Alfred the Great and Edward the Confessor but also features a host of lesser known characters ambitious queens revolutionary saints intolerant monks and grasping nobles Through their remarkable careers we see how a new society a new culture and a single unified nation came into being Drawing on a vast range of original evidence chronicles letters archaeology and artefacts renowned historian Marc Morris illuminates a period of history that is only dimly understood separates the truth from the legend and tells the extraordinary story of how the foundations of England were laid

Anglo-Saxon Britain. by Grant Allen,2017-02-16 Anglo Saxon England was early medieval England existing from the 5th to the 11th century from the end of Roman Britain until the Norman conquest in 1066 It consisted of various Anglo Saxon kingdoms until 927 when it was united as the Kingdom of England by King thelstan r 927

939 It became part of the North Sea Empire of Cnut the Great a personal union between England Denmark and Norway in the 11th century The Anglo Saxons were the members of Germanic speaking groups who migrated to the southern half of the island from continental Europe and their cultural descendants Anglo Saxon history thus begins during the period of Sub Roman Britain following the end of Roman control and traces the establishment of Anglo Saxon kingdoms in the 5th and 6th centuries *The Origins of Anglo-Saxon Kingdoms* Steven Bassett,1989 A wealth of new information about lowland Britain in the Migration Period has been generated during the last 10 years allowing a new examination to be made of the origins of Anglo Saxon kingdoms These essays throw new light on why and how Anglo Saxon kingship originated and discuss processes of state formation Distributed in the US by Columbia U Press Annotation copyrighted by Book News Inc Portland OR

N. Dumville,1993 The principal issue with which these essays are concerned is the nature of relations between the English and the British in the period from the collapse of Roman authority in Britain to the end of the first Viking Age As in the previous collection Histories and Pseudo

Histories of the Insular Middle Ages Dr Dumville emphasises the central importance of close study of manuscripts and texts as the key to understanding the early history of the Anglo Saxon kingdoms and the 9th to 13th century perceptions of these. Among the studies several deal with the historical evaluation of Beowulf and other works of Old English and Welsh literature others illustrate the need to include the Britons across the Channel in Brittany in any full consideration of Insular culture. La question principale laquelle ces essais se rattachent est celle de la nature des rapports entre les Anglais et les Britanniques autochtones durant la période allant de la chute de l'autorité romaine en Grande Bretagne jusqu'à la fin du premier âge viking. Ainsi qu'il l'avait déjà fait dans une collection précédente *Histories and Pseudo Histories of the Insular Middle Ages* le Dr Dumville souligne la prime importance d'une étude minutieuse des textes manuscrits en tant qu'éléments clefs dans la compréhension du début de l'histoire des royaumes anglo saxons et de la perception qu'on en avait entre le 9^e et le 13^e siècle. Parmi les études plusieurs traitent de l'évaluation historique de travaux provenant de la littérature galloise et anglaise ancienne notamment de Beowulf d'autres font état du besoin d'inclure les Britanniques établis de l'autre côté de la Manche en Bretagne dans toute considération de la culture insulaire se voulant complète.
