Science and Art in Durkheim's Readings of Classical Political Philosophy (from Plato to Montesquieu)

*Rodrigo Oscar Ottonello\*\**

### **RESUMEN**

Atendiendo al quiebre de la sociología con la extensa tradición de la filosofía política, ya señalado tanto desde la propia ciencia social como desde la teoría política, este texto propone una reconstrucción de la diferencia entre ciencia y arte, así como de los modos de ubicar a la política en esa clasificación, según cinco autores clásicos a los que Durkheim recurre para marcar las diferencias que singularizan a su proyecto: Platón, Aristóteles, Hobbes, Rousseau y Montesquieu. El objetivo es, contra algunas lecturas actuales, profundizar en un entendimiento de lo social no como dominio de lo político, sino como su límite.

**PALABRAS CLAVE:** Durkheim, sociología, filosofía política, Aristóteles, Platón, Hobbes, Rousseau, Montesquieu.

### **ABSTRACT**

Taking into account sociology's break with the extensive tradition of political philosophy, recognized by both social science and political theory, this article proposes a reconstruction of the difference between science and art, as well as the ways of situating politics in that classification, according to five classical authors that Durkheim looks at to mark the differences that make his project unique: Plato, Aristotle, Hobbes, Rousseau, and Montesquieu. In contrast with some current literature, the aim here is to deepen our understanding of the social not as the field of politics, but as its limit.

**KEY WORDS:** Durkheim, sociology, political philosophy, Aristotle, Plato, Hobbes, Rousseau, Montesquieu.

*Readings in Classical Political Thought* Peter J. Steinberger, 2000-01-01 Designed to include all of the texts from Presocratics through Machiavelli likely to be read in an undergraduate course on classical political thought this anthology has at its core generous selections from Plato and Aristotle Building on this core is a sufficiently diverse and substantial selection of texts from other writers including Thucydides and the Sophists to allow for inquiry into the variety of Classical Greek approaches to politics as well as into Roman Medieval and Renaissance developments of the classical tradition Preeminent translations and the editor's own thoughtful introductions further distinguish this unique anthology

**Classical Political Economy** Michael Perelman, 2013-11-07 Classical Political Economy addresses the question of what determines the social division of labour the division of society into independent firms and industries and develops the theoretical implications of primitive accumulation It also offers a significantly different interpretation of classical political economy demonstrating that this school of thought supported the process of primitive accumulation Classical political economy presents an imposing facade For more than two centuries the accepted doctrine dictates that a market generates forces that provide the most efficient method for organising production This laissez faire approach is an ideology that gives capital absolute freedom of action and yet called for intervention to coerce people to do things that they would not otherwise do Classical political economy therefore encouraged policies that would hinder people's ability to produce for their own needs Michael Perelman however in this innovative take on the subject seeks to challenge the ideologies that would allow things to continue in this line unchecked Catalogue Williams College, 1927 **A list of books in the reading room, 1900** Chicago John Crerar libr, 1900 **Morality in the Age of Political Redemption** András Láncki, 2023-11-25 In modern times politics in the Western world has become the ultimate source of morality with the decline of religious and spiritual certainties Today public legitimacy both political and moral can only be derived from the idea that authority is based on individual decisions The foundation of modern Western morality is based on the priority of the individual hence the entitlement of modern democracy This book is a case in favour of communal based individualism Narrow minded individualism can only lead to modern forms of nihilistic morality such as egoism and narcissism Today the schisms of morality within Western culture are more and more visible between the USA and Europe and is within Europe which has been exacerbated by the rift between Europe and Russia The book argues that if these schisms are not handled in a moral sense then Nietzsche's prediction that Europe was to face two hundred years of nihilism might come true and would threaten Western civilization **Caliban's Freedom** Anthony Bogues, 1997-02-20 Leading scholars discuss ideology and hotly contested post structuralist theory **Political Philosophy** Louis P. **The Political Interests of Gender** Kathleen B Jones,Anna G Jonasdottir,1988 The Political Interests of Gender starts from the premise that contemporary political theory is inadequate when approached from the perspective of gender The book indicts contemporary political analysis for its silence about or ignorance of women s interests and challenges the hypothesis that the central concepts of political thought and its basic techniques are value neutral The contributors go on to consider what political theory and political communities would look like if women s interestes were addressed The aim is to reconstruct the methodology of political analysis to conceptualize political reality in terms of gender The book presents a powerful argument that to consider *Victims and the Labour of Justice at the International Criminal Court* Leila Ullrich,2024 [The Tragedy of Political Theory](#) J. Peter Euben,2020-09-01 In this book J Peter Euben argues that Greek tragedy was the context for classical political theory and that such theory read in terms of tragedy provides a ground for contemporary theorizing alert to the concerns of post modernism such as normalization the dominance of humanism and the status of theory Euben shows how ancient Greek theater offered a place and occasion for reflection on the democratic culture it helped constitute in part by confronting the audience with the otherwise unacknowledged principles of social exclusion that sustained its community Euben makes his argument through a series of comparisons between three dramas Aeschylus Oresteia Sophocles Oedipus Tyrannos and Euripides Bacchae and three works of classical political theory Thucydides History and Plato s Apology of Socrates and Republic on the issues of justice identity and corruption He brings his discussion to a contemporary American setting in a concluding chapter on Thomas Pynchon s The Crying of Lot 49 in which the road from Argos to Athens built to differentiate a human domain from the undefined outside has become a Los Angeles freeway desecrating the land and its people in a predatory urban sprawl
