professionals working with families *Readings in Family Theory* Thomas R. Chibucos,Randall W. Leite,David L. Weis,2005
Readings in Family Theory is an anthology of classic and contemporary articles that provides a context for student learning by demonstrating how theory fits into the overall process of scientific research on families The book provokes student interest in theory by providing examples of the scholarly application of family theory to compare how people use similar processes in everyday life Using this contextual orientation the selected readings examine nine prevalent theoretical perspectives from both family and human development sciences Reading the Family Dance John V. Knapp,Kenneth

Womack,2003 The development in recent years of the intersections between the family and literary study continues to emerge as one of the most productive and illuminating arenas of contemporary critique In addition to addressing the family dynamic through which a given literary character develops a fully realized sense of self family systems therapy allows readers to examine the patterns by which characters function in their larger intimate systems whether those systems be social institutional or even global As the intellectual foundation for the forms of therapy practiced by the majority of contemporary American and European psychotherapists the study of family systems theory and its intersections with literary works affords readers with an illuminating glimpse into the terminology and processes involved in this dynamic form of critique Perhaps most significantly family systems therapy allows critics to consider the distinctly social interactions that characterise our pathways to interpersonal development and selfhood John V Knapp is Professor of English with a joint appointment in modern literature and in teacher education at Northern Illinois University Kenneth Womack is Assist
