Patterns In Post Soviet Leadership:

Patterns In Post-soviet Leadership Timothy Colton, Robert C Tucker, 2019-06-04 This book summarizes leadership and general political developments in the Soviet Union since the onset of the reforms It explores new developments and old continuities in elite politics in the Russian Federation and other post Soviet states during the period of transition and consolidation

Patterns in Post-Soviet Leadership Timothy J. Colton, Robert C. Tucker, 1995 Leadership a mainstay of Soviet political studies has been a much neglected subject since the collapse of the Soviet regime However developments in post Soviet affairs show that leadership still matters greatly even as democratization in many states has opened up the political process to wider circles of the population This volume explores new developments and old continuities in elite politics in the Russian Federation and other post Soviet states during the period of transition and consolidation The contributing authors analyze the significance of personal character and values of changing leadership roles and institutions and of cultural and historical traditions for the functioning and effectiveness of the new governments and their top leaders

Implementing Health Sector Reform in Central Asia Zuzana Feachem, Martin Hensher, Laura Rose, 1999 It is easy for reformers and their overseas advisers to develop conceptually strong plans for health sector reform that appeal to governments donors and academics Transforming these plans into successful action has proved to be extremely difficult Toward the goal of improving assistance to this sector the Economic Development Institute EDI of the World Bank held a seminar in Ashgabat Turkmenistan in June 1996 This publication provides a summary of the proceedings and papers presented at that seminar It was attended by delegations from five countries in Central Asia and from Azerbaijan and Mongolia The content of this volume emphasizes topics central to the restructuring of health sector financing and health care delivery systems at a time of transition to market economies and to democracy Maintaining and improving the health status of the population while preventing rapid escalation of health care expenditure were the recurrent themes throughout the seminar

Modern Hatreds Stuart J. Kaufman, 2015-06-22 Ethnic conflict has been the driving force of wars all over the world yet it remains an enigma What is it about ethnicity that breaks countries apart and drives people to acts of savage violence against their lifelong neighbors Stuart Kaufman rejects the notion of permanent ancient hatreds as the answer Dissatisfied as well with a purely rationalist explanation he finds the roots of ethnic violence in myths and symbols the stories ethnic groups tell about who they are Ethnic wars Kaufman argues result from the politics of these myths and symbols appeals to flags and faded glories that aim to stir emotions rather than to address interests Popular hostility based on these myths impels groups to follow extremist leaders invoking such emotion laden ethnic symbols If ethnic domination becomes their goal ethnic war is the likely result Kaufman examines contemporary ethnic wars in the Caucasus and southeastern Europe Drawing on information from a variety of sources including visits to the regions and dozens of personal interviews he demonstrates that diplomacy and economic incentives are not enough to prevent or end ethnic wars The key to real conflict

resolution is peacebuilding the often overlooked effort by nongovernmental organizations to change hostile attitudes at both the elite and the grassroots levels

Elite Dualism and Leadership Selection in China Xiaowei Zang, 2004-03-01 Who are the top political leaders in China What are the major criteria in elite recruitment How is job promotion in high politics determined By studying over one and a half thousand top political Chinese leaders this book seeks to answer these questions and as a result defines how Chinese leadership is stratified Unlike existing research on Chinese leaders *Elite Dualism and Leadership Selection in China* draws on extensive statistical information and data analysis It evidences how political development in the reform era has led to the division of labour between the Chinese Communist Party CCP and the government in governance leading to two distinctive career paths in the two political systems respectively Key issues examined include the different criteria the CCP and the government demand the requirements for promotion the effect of university education on the rate of mobility the different affiliations of the two groups the role of cooptation in leadership selection Many of the elites discussed are still leading figures in China making this book the most up to date and extensive biographical data set in elite studies This allows for a meaningful analysis of elite behaviour in China for the first time in Chinese Studies This book will be useful to both students of Chinese studies and comparative politics and will also interest researchers political commentators statesmen and China watchers

The Soviet and Post-Soviet Review ,2014 **Post-Soviet Affairs** ,2000 Soviet and Post-Soviet Area Studies Victoria E. Bonnell, 1998 Leading Russia: Putin in Perspective Alex Pravda, 2005-05-26 Leaders and leadership continue to dominate Russia's political development Like his predecessors in the Kremlin Vladimir Putin has made a crucial impact on the substance and style of Russian politics His efforts to use traditional tools of state power to manage democracy and market capitalism have had mixed effects on both *Leading Russia* investigates the ambiguities and contradictions of Putin's rule from four perspectives The volume first considers his leadership in the context of Russia's convulsive historical cycle of revolutionary transformation breakdown consolidation and stagnation The study then analyses how normative and

institutional components of democracy have fared under Putin's regime of stronger executive control. It proceeds to examine the strengths and weaknesses of presidential power vis-à-vis bureaucratic, regional, and corporate groups. The volume concludes with two assessments of the strategic direction in which Putin is taking Russia. They explore the tensions between bureaucratic authoritarian trends and Putin's apparent commitment to electoral democracy, market capitalism, and alignment with the West. The book helps to deepen our understanding of the cultural and institutional factors shaping Putin's leadership approach and policy priorities. More widely, it sheds light on the complexity of the relationship between post-communist leadership, democracy, and economic modernization.

Culture, Economics and Democracy in Post-Soviet Russia

Elizabeth Fecko-Curtis, 1998 **Can Democracy Take Root in Post-Soviet Russia?** Harry Eckstein, 1998 Exploring the dynamics of state-society relations in post-Soviet Russia, noted scholars examine the nature of authority patterns within and between state and society. The authors explain congruence theory and employ it to interpret contemporary Russian politics. With its strong theoretical orientation, this pathbreaking volume raises new issues in the study of post-communist politics and from the unifying perspective of congruence theory provides a range of views on these hotly contested issues. *Monthly Bibliography*, United Nations Library (Geneva, Switzerland), 1997 *A Research Seminar in Black and White* Alfred Erich Senn, 2004 *Slavic Review*, 1998 American quarterly of Soviet and East European studies varies AccessAsia, 1996
