Research And Statistical Methods In Communication Sciences And Disorders

David L. Irwin, Norman J. Lass, Mary Pannbacker, Mary Ellen Tekieli Koay, Jennifer S. Whited

Research And Statistical Methods In Communication Sciences And Disorders:

Research and Statistical Methods in Communication Sciences and Disorders David L. Maxwell, Eiki Satake, 2006 This engaging new book provides comprehensive coverage of research methods as well as a foundation in statistical analysis vital for individuals in the communication sciences and disorders field While most speech language pathologists and audiologists pursue clinical practice rather than research careers it is important to understand the scientific base that their clinical work is built upon Successful evidence based clinical practice is rooted in this understanding *Research and Statistical Methods in Communication Sciences and Disorders* covers the principles of research design data analysis and presentation of findings necessary for individuals performing research as well as consumers of scientific literature Filled with meaningful examples written in readable language and pertinent to both speech language pathology and audiology this resource provides the essential knowledge of scientific reasoning and methods for scientific inquiry necessary to perform and understand research

Research and Statistical Methods in Communication Disorders David L. Maxwell, Eiki Satake, 1997 A text for graduate students preparing for clinical practice and research in communication disorders assuming no background in statistics and minimal mathematical sophistication Covers the philosophical and logical foundations of scientific reasoning research methods and core statistical concepts and provides a simplified schema for classifying nonexperimental and experimental research designs Demonstrates step by step calculations of commonly used tests discusses criteria for funding research and offers outlines for reading and evaluating research articles and writing proposals Includes chapter review tests and answers and a glossary Annotation copyrighted by Book News Inc Portland OR

Statistical Methods for Communication Science Andrew F. Hayes, 2020-10-14 *Statistical Methods for Communication Science* is the only statistical methods volume currently available that focuses exclusively on statistics in communication research Writing in a straightforward personal style author Andrew F Hayes offers this accessible and thorough introduction to statistical methods starting with the fundamentals of measurement and moving on to discuss such key topics as sampling procedures probability reliability hypothesis testing simple correlation and regression and analyses of variance and covariance Hayes takes readers through each topic with clear explanations and illustrations He provides a multitude of examples all set in the context of communication research thus engaging readers directly and helping them to see the relevance and importance of statistics to the field of communication Highlights of this text include thorough and balanced coverage of topics integration of classical methods with modern resampling approaches to inference consideration of practical real world issues numerous examples and applications all drawn from communication research up to date information with examples justifying use of various techniques and downloadable resources with macros data sets figures and additional materials This unique book can be used as a stand alone classroom text a supplement to traditional research methods texts or a useful reference manual It will be invaluable to students faculty researchers and practitioners in communication and it will serve to advance the understanding

and use of statistical methods throughout the discipline *Statistical Methods and Reasoning for the Clinical Sciences* Eiki Satake,2014-08-01 *Research in Communication Sciences and Disorders* Timothy J. Meline,2006 From one of the best known authorities in research and research to practice issues comes an important text for teaching research methods and applications An interactive writing style with technology notes throughout allows instructors to teach content methods and evaluation Application examples and study questions provide many opportunities for formative and summative assessment of student learning *Understanding Research and Evidence-based Practice in Communication Disorders* William O. Haynes,Carole E. Johnson,2009 This student friendly text that explores the connection between common communication science research methods and clinical practice Covering both the conceptual and the quantitative aspects of research methods evidence based practice experimental design and statistics this book both elucidates various models of research and practice and explains how these models are important to the greater field of communication science While some students and practitioners find many books on research evidence based practice and statistical concepts to be intimidating abstract and dry this text strives to emphasize not only the ideas surrounding evidence based practice but also how its principles can be applied in clinical practice *Handbook of Statistical Methods* Eiki Satake,Vinoth Jagaroo,David L. Maxwell,2008 This new book recognizes and serves the increasing need to adopt single subject research programs driven by often limited populations by the ability to adapt specifically and to meet the increasing need to satisfy quality assurance goals demanded by both patients and care providers **Fluency Disorders** Kenneth J. Logan,2020-10-22 *Fluency Disorders Stuttering Cluttering and Related Fluency Problems Second Edition* is a vital resource for graduate courses on stuttering and related disorders of fluency This thoroughly updated text features accessible and comprehensive coverage of fluency disorders across a range of clinical populations including those with developmental and acquired stuttering cluttering and various types of developmental and acquired language impairment Information in the text is aligned with current standards for clinical certification specified by the American Speech Language Hearing Association s Council for Clinical Certification CFCC Readers will learn practical strategies and methods for how to assess and treat fluency disorders in preschool and school aged children teens and adults The text is organized into five key sections Foundational Concepts Neurodevelopmental Stuttering Other Types of Fluency Disorders Clinical Assessment and Intervention Approaches Together these topics make the comprehensive *Fluency Disorders* a truly distinguishable text in the field of speech language pathology Key Features Content that emphasizes clinical practice as well as client patient experiences Discussion of fluency disorders in the context of communicative functioning and quality of life Chapter objectives begin each chapter and highlight key topics Questions to Consider conclude each chapter to help readers apply their knowledge Readers learn to organize information around clinical principles and frameworks New to the Second Edition New larger 8 5 x 11 trim size Updated and expanded references throughout Reorganized outline and increased coverage of treatment and counseling information Expanded use of

text boxes to help readers relate chapter concepts to clinical practice Disclaimer Please note that ancillary content such as documents audio and video etc may not be included as published in the original print version of this book *Research in Communication Sciences and Disorders* Lauren K. Nelson, Jaimie L. Gilbert, 2020-08-26 *Research in Communication Sciences and Disorders Methods for Systematic Inquiry* Fourth Edition is a comprehensive yet comprehensible text meant for instructors and students of research methods in the field of communication sciences and disorders This forward thinking book reflects the movement toward evidence based practice in speech language pathology and audiology The authors ensure that the concepts associated with evidence based practice are integrated throughout the chapters Rather than treating empirical research and searching for clinical evidence as separate topics this text presents both as different applications of a process of scientific inquiry The order of the chapters reflects the steps a researcher or clinician might complete when conducting an investigation Also included are features that help students be more active in learning the material Each chapter has a set of review questions or case scenarios that can be used as homework as probe questions in class or as a basis for group activities In addition the authors provide lists of supplemental readings from the research literature in the field New to the Fourth Edition New author Jaimie L Gilbert for an enhanced audiology perspective New chapter Writing a Literature Review Reorganized for better flow of information Various new and updated references to reflect the current state of research Additional illustrations and tables Expanded material on critical appraisal Disclaimer Please note that ancillary content such as documents audio and video etc may not be included as published in the original print version of this book

Research in Communication Sciences and Disorders Lauren K. Nelson, Jaimie L.
