Russian, Stage Two Richard D. Brecht, 1997 **Русский Язык** Cynthia Martin, Инга Борисовна Соколова, 1993

exercises graded according to level of difficulty cross referencing to the related Modern Russian Grammar topical exercises
which develop students vocabulary base The Modern Russian Grammar Workbook is ideal for all learners of Russian from
beginner to intermediate and advanced students It can be used both independently and alongside the Modern Russian
Grammar A Practical Guide also published by Routledge John Dunn is Honorary Research Fellow and Shamil Khairov is
Lecturer in Russian both at the School of Modern Languages and Cultures University of Glasgow Student-Centered
Approaches to Russian Language Teaching Svetlana V. Nuss, Cynthia L. Martin, 2022-12-30 Student Centered Approaches to
Russian Language Teaching looks at how the field of Russian language pedagogy has evolved in recent years due to advances
in technology along with shifts in attitudes to language pedagogy and how the pandemic has compounded and accelerated
these changes This edited collection brings together different perspectives from the field of Russian language pedagogy With
pedagogical conversations now centered around students and their needs as well as the evolving role of the teacher in the
21st century this volume highlights the diverse ways in which instructional practices have evolved making curriculum and
assessment more student centered and Russian language learning more engaging The collection will be of interest to current
and future instructors of Russian as a foreign or additional language who wish to diversify their instruction as well as
students of Russian language pedagogy and second language learning and teaching **Action Research into Teaching**
English in Russia's Professional Context Natalia A. Gunina, 2015-10-13 This book is a result of the investigative attempts
of linguistics professionals to identify and meet the challenges of developing communicative competence in future engineers
economists and other such specialists The unifying feature of all the contributions brought together here is the active
involvement of the authors in practical instruction of English for specific professional purposes at the tertiary bachelors and
masters programs level in Russia This volume covers a number of relevant areas in this field including new developments in
methodology approaches to course and materials design and the contribution of language theory to foreign language
teaching in a professional context The unique teaching approach advocated in this book denounces the traditional practice of
transferring classical methodology of communicative oriented teaching to language classes for students with a non linguistic
or non teaching professional orientation The underlying idea of this volume is that a change in professional context implies a

change in language teaching methodology including materials techniques and target competences The ideas and experiences analysed here will appeal to anyone interested in the current trends in foreign language teaching and learning and particularly to educationalists
