The Russian Transformation Professor Betty Glad,Betty Glad,Eric Shiraev,1999 The Russian Transformation explains the difficulties in this process from a multi disciplinary perspective combining sociological and political psychological analyses of the Russian political transition since 1985

Understanding Russia Marlene Laruelle,Jean Radvanyi,2018-08-16 This timely book provides a balanced and comprehensive overview of the geographical historical political cultural and geostrategic factors that drive Russia today Russia has long inspired fear in the West but as the authors argue Russia is fearful as well Three decades after the transformations launched by perestroika multiple ghosts haunt both Russian elites and ordinary citizens ranging from concerns about territorial challenges societal transformations and economic decline to worries about the country s vulnerability to external intervention Faced with a West that emerged victorious from the Cold War a shockingly dynamic China and former Soviet republics claiming their right to emancipate themselves from Moscow s stranglehold Russia is constantly questioning its identity its development path and its role on the international scene The country hesitates between two strategies take refuge in a new isolation and revive the old notion of being a besieged fortress or replay the messianic myth of a Third Rome the last bastion of Christian values in the face of a decadent West Explaining Russia s perspective Marlene Laruelle and Jean Radvanyi offers a much needed analysis that will help readers understand how the country deals with its domestic issues and how these influence Russian foreign policy

The Transformation of Urban Space in Post-Soviet Russia Isolde Brade,Konstantin Axenov,Evgenij Bondarchuk,2006-09-27 Chapter 1 Post industrial vs post socialist Post industrial trends and points for investigation in the post socialist metropolis chapter 2 Changes in the functions of St Petersburg as a prerequisite for structural change in the city chapter 3 Transformation tertiary sector and city space Time space approach chapter 4 Transformation and specific forms of spatial saturation chapter 5 The spatial transformation of vertical business structures chapter 6 Territorial complex building chapter 7 Post transformation urban space The results of spatial saturation and the spatial organization of new business forms chapter 8 Post transformation vs modernization Conclusions

Women and Transformation in Russia Aino Saarinen,Kirsti Ekonen,Valentina

Uspenskaia,2013-11-26 This book looks at Russian women s mobilization and agency during the two periods of transformation the turn of the 19th 20th century and the 20th 21st century Bringing together the parallels between the two great transformations it focuses on both the continuities and breaks and importantly it shows them from the grassroots point of view emphasizing the local factor Chapters show the international and transnational aspects of Russian women s agency of different spheres and different historical periods The book goes on to raise new research questions such as the evaluation and comparison of Soviet society and contemporary Russia from the point of view of gender and women s possibilities in society

The Capitalist Transformation of State Socialism David Lane,2013-11-20 David Lane outlines succinctly yet comprehensively the development and transformation of state socialism While focussing on Russia and the countries of Eastern Europe he also engages in a discussion of the Chinese path In response to the changing social structure and external demands he outlines different scenarios of reform He contends that European state socialism did not collapse but was consciously dismantled He brings out the West s decisive support of the reform process and Gorbachev s significant role in tipping the balance of political forces in favour of an emergent ascendant class In the post socialist period he details developments in the economy and politics He distinguishes different political and economic trajectories of countries of the former USSR the New Member States of the European Union and China and he notes the attempts to promote further change through coloured revolutions The book provides a detailed account not only of the unequal impact of transformation on social inequality which has given rise to a privileged business and political class but also how far the changes have fulfilled the promise of democracy promotion wealth creation and human development Finally in the context of globalisation the author considers possible future political and economic developments for Russia and China Throughout the author a leading expert in the field brings to bear his deep knowledge of socialist countries draws on his research on the former Soviet Union and visits to nearly all the former state socialist countries including China

The Communist Youth League and the Transformation of the Soviet Union, 1917-1932 Matthias Neumann,2012-05-23 The study of Soviet youth has long lagged behind the comprehensive research conducted on Western European youth culture In an era that saw the emergence of youth movements of all sorts across Europe the Soviet Komsomol was the first state sponsored youth organization in the first communist country Born out of an autonomous youth movement that emerged in 1917 the Komsomol eventually became the last link in a chain of Soviet socializing agencies which organized the young Based on extensive archival research and building upon recent research on Soviet youth this book broadens our understanding of the social and political dimension of Komsomol membership during the momentous period 1917 1932 It sheds light on the complicated interchange between ideology policy and reality in the league s evolution highlighting the important role ordinary members played The transformation of the country shaped Komsomol members and their league s social identity institutional structure and social psychology and vice versa the organization itself became a crucial force in the dramatic changes of that time The

book investigates the complex dialogue between the Communist Youth League and the regime unravelling the intricate process that transformed the Komsomol into a mere institution for political socialization serving the regime's quest for social engineering and control

Social Transformation for Climate Change Nicholas Low, 2023-12-22 This book argues that social transformation is both necessary and possible if democracies are to respond effectively to the climate crisis without social collapse Climate transformation and social transformation are intimately connected Understanding how to address climate change requires a historical approach both to the climate and to our collective institutions of humanity Drawing on the works of Karl Polanyi and Thomas Piketty Nicholas Low traces the course of historic social transformations from Britain Russia and Australia to highlight key commonalities social crisis the widespread sense by those in power that something has to change the shift in ideology and the political champions that drove the change Within its international scope the book delves deeper into specific instances of inequality and poverty from Britain the USA Australia and the Global South It shows how these examples are connected with the current climate emergency Finally the author draws together all the evidence from past transformations to outline how a new social democratic transformation could generate a better future creating the social solidarity necessary to cope with the climate crisis This book will be of great interest to students and scholars of climate change environmental politics and policy political ecology environmental sociology and environmental studies more broadly Its argument is also highly relevant for political actors working towards social and economic transformation

Transforming Russian Enterprises John Logue, Sergei Plekhanov, John Simmons, 1995-10-24 Russia is moving dramatically ahead in reforming its economy and its firms This joint Russian and American work focuses on the key issue in the Russian economic reform process how to convert state owned firms into successful private companies capable of competing in a market economy Unique case studies of Russian enterprises their legal and internal structure management philosophy and economic performance provide insightful analyses of the ongoing Russian experience with economic reform Recent Russian legislation and its implications for privatization are also discussed

Civil Society, Social Change, and a New Popular Education in Russia W. John Morgan, Irina N. Trofimova, Grigori A. Kliucharev, 2018-10-03 Civil Society Social Change and a New Popular Education in Russia is a detailed account of contemporary issues that draws upon recent survey research conducted by the Institute of Sociology Russian Academy of Sciences as well as from secondary published work in both Russian and English The book explores how social change and developments in civil society are occurring in Russia and the role played by a new popular education The right to lifelong learning is guaranteed by the Russian state as it was by the Soviet Union where formal education based on communist ideology emphasised the needs of the state over those of individuals In practice a wide range of educational needs many of which relate to coping with changing economic social and technological circumstances are being met by non governmental

providers including commercial companies self help groups and community and neighbourhood clubs This book discusses how this new popular education is both an example of developing civil society and stimulates its further development However as the book points out it is also part of a growing educational divide where motivated articulate people take advantage of new opportunities while disadvantaged groups such as the unemployed and the rural poor continue to be excluded
