Brewer's Dictionary of Phrase & Fable Ebenezer Cobham Brewer, 2009. An idiosyncratic adventure pulling you in and saying this is in fact not what you were looking for but it's much more interesting. Terry Pratchett. This flagship title in the Brewer's series was first published in 1870 to supply readers with material that was both entertaining and improving. The new 18th edition is filled with hundreds of new facts from designer babies to New York's sewer-dwelling alligators and brings back over 200 classic entries such as magic garters and Poison detectors.

New Cities in America Sylvia L. Lovely, 2004. **Aesthetic Transgressions** Thomas Claviez, Ulla Haselstein, Sieglinde Lemke, 2006. The debate over the function of aesthetics can be traced back to the New Criticism and its aftermath. After its theoretical axioms and criteria of judgement had been debunked as ideologically charged, two factions emerged. A number of critics defended the value of aesthetic complexity, i.e. of ambiguity, irony, and negativity, and refused to accept the arguments of ideology critique attacking the concept of aesthetic autonomy. Revisionist critics, however, tended to marginalize aesthetic categories or rather they described the respective textual features as complicity with the social status quo and concentrated on art previously omitted from critical study because of its political or social agenda. Today the dialogue between the two increasingly exhausts itself in mutual accusations of ideological partisanship. The essays collected in this volume dress this rift by re-introducing the notion of aesthetic which has tended to be obliterated from critical discourse in American literature. They draw attention to the fact that the literary imagination represents a specific social field of meaning production and calls for a specific attitude of the reader towards language as a means of reality production. In their close readings, the authors analyze the actual strategies of the cultural-political work of literature. Consequently, their analyses highlight both the critical evaluations concerning the political implications of literary form and the different historical functions a text can fulfill at the time of its publication and later on.

All the Shining Young Men Gilbert Morris, Bobby Funderburk, 1993.
