Pareto Mosca Makers Of Modern Social Science:

Makers of modern social science James H. Meisel,1965 Pareto & Mosca James Hans Meisel,1965 Critical essays evaluating ideas on political power and the elite as expressed in V Pareto s Mind and society and G Mosca s The ruling class

The Defenders of Liberty Neema Parvini,2020-05-01 The Defenders of Liberty presents a history of economic liberalism from the Renaissance to the present It chronicles the tradition of thought that sees human nature as social yet self interested methodological individualism as its key analytical tool and property rights as foundational to a civilised society In the development of this way of thinking it considers the contributions of many key thinkers including Niccol Machiavelli Thomas Hobbes John Locke Richard Cantillon A J R Turgot David Hume Adam Smith Nassau William Senior Richard Cobden Herbert Spencer Jean Baptiste Say Carl Menger William Stanley Jevons Gaetano Mosca Eugen B hm Bawerk Vilfredo Pareto Phillip Wicksteed Edwin Cannan Ludwig von Mises Lionel Robbins F A Hayek W H Hutt Milton Friedman George Stigler Murray N Rothbard James M Buchanan and Thomas Sowell The book contends that liberalism needs to be grounded in realism and that it has been derailed whenever economists have deviated from an explicitly realist understanding of human nature individualism and property rights It argues that the cause of liberalism was compromised by errors in economic reasoning by such major figures as David Ricardo John Stuart Mill Alfred Marshall A C Pigou and John Maynard Keynes In diagnosing what has gone wrong for liberalism in the twenty first century The Defenders of Liberty argues against substituting mathematical abstraction for causal realism it opposes interventionist central banking it seeks to recover economic liberalism from social and political liberalism which are somewhat unrelated schools of thought it resists a view of human nature rooted in selfishness or atomised individualism and finally alerts defenders of freedom to the ruthless but effective language games played by their opponents This book will be of interest to the educated general reader as well as undergraduates and postgraduates in disciplines such as economics political theory and philosophy Makers of Modern Social Science Pareto & Mosca James Hans Meisel,1965 Encyclopedia of Public Administration and Public Policy David Andrew Schultz,James A Beverly,Professor and Senior Fellow David Schultz,2014-05-14 An alphabetical listing of administrative agencies and departments with details about the office and its role in government as well as terms and definitions **Social Professional Activities and the State** Peter Herrmann,2007 Preface Part I Prolegomena 1 Background 2 The known and the strange a challenge for Europe and social professional activities SPA in Europe 3 Social action social work and SPA marking the field 4 Methodology for developing a methodological framework for comparative research 5 Marking the field references and outline Excursus A The social as hypostatized individualism and the general interest Part II Vestibule the previous work undertaken 1 The first room Understanding society a structural action oriented approach 2 Second room Comparison in European social policy regime analysis versus action theory 3 Third room Gesellschaft and Gemeinschaft a wrong confrontation 4 Fourth room Social quality approach reintegrating structure and action in an applied theory perspective or arriving at a meta

theoretical perspective Part III What welfare what kind of state or SPA and state what kind of dependency 1 Introduction 2 Theoretical and methodological perspectives 3 Etymological and terminological analysis Excursus C Internationality and historicity Part IV The historiography of social professional activity IV A In search for a framework 1 Introduction 2 Modernisation defining the framework 3 SPA on the way to a common ground and understanding 4 Social challenges in the framework of socialisation Excursus D Some general requirements of SPA and the paradox of professionalisation 5 Between similarities of secular changes in the modes of societal integration and nationally different suggestions of re integration Excursus E Social problems versus social challenges 5 Continued between similarities of facing secular changes in the modes of societal integration and nationally different suggestions of re integration Excursus F The three great themes IV B Country studies 6 England 7 France 8 Germany Part V Conclusion Epilogue I The analytical perspective a proposal for a different focus II The practical perspective a proposal for biased practice rather than comparative analysis References Index

Who Governs in a Binational Context? Irasema Coronado Castañeda,1998 Counter-revolution; how Revolutions Die James Hans Meisel,1966 The flow and counter flow of revolution and counterrevolution have become the norm of the twentieth century In this fascinating and well rounded volume the author illuminates the revolutionary process as it has developed from antiquity to the present day from the vantage points of political science history and sociology Meisel s work is presented in the form of twelve absorbing episodes in the history of Western civilization His remarkable for the detail with which he approaches a subject often difficult to define and even more difficult to explain He suggests a new and highly useful perspective of history by viewing it as a process of revolution and counterrevolution and their transitional stages As it is the nature of revolutions to fall short of their objectives and to enjoy only a brief heyday that becomes the stereotype accepted by posterity the author emphasizes their antithetical closing phases whose lessons posterity tends to forget Meisel s belief is that second echelon figures teach us more about the natural process of revolution than the atypical men of destiny and he illustrates his account with many portrayals of comparative unknowns who lived through all the stages of revolution and counterrevolution But revolutions can also be aborted or be preceded by counterrevolutions as Meisel demonstrates by enlightening analyses of Mussolini s coup d utat the origins of the Spanish Civil War and General de Gaulle s defeat of a potential army insurrection in behalf of French Algeria In this profound and wide ranging work Meisel achieves an admirable balance between theory action and biography The result is a unique survey of revolutionary history in which a sophisticated thinker provides on almost every page a deepening understanding of the problems of revolution for the scholar and student of political processes political theory and comparative politics The reader with a lively interest in the modus operandi of history will also find this book compelling reading Provided by publisher *Library Journal* Melvil Dewey,Richard Rogers
