Philosophy Of Value:

The Oxford Handbook of Value Theory Iwao Hirose, Jonas Olson, 2015-05-01 Questions about value are important in many contexts Value theory or axiology studies which things are good or bad how good or bad they are and most fundamentally what it is for a thing to be good or bad This Handbook provides a comprehensive and state of art overview of the debate in value theory Foundations of the Philosophy of Value Harold Osborne, 1980 *Philosophy of Value* Leo Richard Ward, 1930 The Structure of Value Robert S. Hartman, 2011-12-15 Hartman s revolutionary book introduces formal orderly thinking into value theory It identifies three basic kinds of value intrinsic goods e g people as ends in themselves extrinsic goods e g things and actions as means to ends and systemic goods conceptual values All good things share a common formal or structural pattern they fulfill the ideal standards or concepts that we apply to them Thus this theory is called formal axiology Some values are richer in good making property fulfillment than others so some desirable things are better than others and form patterned hierarchies of value How we value is just as important as what we value and evaluations like values share structures or formal patterns as this book demonstrates Hartman locates all of this solidly within the framework of historical value theory but he moves successfully and creatively beyond philosophical tradition and toward the creation of a new value science **Foundations of the Philosophy of Value** H. Osborne, 2016-10-06 Originally published in 1933 this book provides a concise discussion regarding the nature of value and value theories taking the view that an understanding of value is a no less necessary part of the equipment of every competent philosopher than is epistemology **Introduction to Value Theory** Nicholas Rescher, 1969 **The Philosophy of Value** De Witt Henry Parker, 1957 *What is Value?* Everett W. Hall, 2014-06-23 First published in 2000 This is Volume IV of six in the Nineteenth and Twentieth Century Anglo American Philosophy series and focuses on value with an essay in Philosophical Analysis The Austrian Philosophy of Values Howard Ormsby Eaton, 1930 At head of title Howard O Eaton PH D Bibliography p 373 375 *Value-theory and Criticism* Orlie Pell, 1930 **The Philosophy of Value** Dewitt H. Parker, 1968 **Exploring Values** Petrus Eko Handoyo, 2015-12-16 Philosophy studies all reality all things and all beings Philosophy in general raises questions everything real Yet it always asks about one of the aspects of reality which becomes our focus of exploration Philosophy however is always philosophy of something special like philosophy of man philosophy of value philosophy of nature and others This book is concerned with values It is about philosophy of value or axiology What is value The human life always relates to values What we hope for as well as what we believe in mostly connect with our values although we also face physical matters in life Do we truly pursue the abstract things in life How do we know we have values Are values forever related to the good and the sacred What about the bad the evil and the ugly This book explores the world of values through various axiological standpoints debates the problems of values in human life factual and evaluative judgments the structure of human values issues of values in culture and close personal relationships This book finally motivates us to identify discover

or rediscover our core values by formulating personal axiological perspectives

QUE SON LOS VALORES ENGL. Risieri Frondizi, 1971

Foundations of the Philosophy of Value Harold Osborne, 1939

Metaphilosophy Nicholas Rescher, 2014-10-23 The definitive mission of metaphilosophy is to facilitate an understanding of how philosophy works the aim of the enterprise the instrumental and procedural resources for its work and the prospect of its success Nicholas Rescher unites two facets of metaphilosophy to show that historical perspective and forward thinking normative or systematic metaphilosophy cannot be independent of one another The descriptive or historical metaphilosophy provides an account of what has been thought regarding the conduct of philosophical inquiry and the prescriptive or normative metaphilosophy which deliberates about what is to be thought regarding the conduct of philosophizing Rescher argues that metaphilosophy forms a part of philosophy itself This is a unique feature of the discipline since the philosophy of biology is not a part of biology and the philosophy of mathematics is not a part of mathematics Ultimately the salient features of philosophizing in general including the inherently controversial and discordant nature of philosophical doctrines are also bound to afflict metaphilosophy Thus only by a careful analysis of the central issues can a plausible view of the enterprise be developed

Metaphilosophy Philosophy in Philosophical Perspective challenges the static compartmentalized view of metaphilosophy providing insight for scholars and students of all areas of philosophy
