

Managing service Quality

- The service quality of a firm is tested at each service encounter. If service personnel are bored, cannot answer simple questions, or visiting with each other while customers are waiting, customers will think twice about doing business again with that seller.
- **Customer expectations:** customers form service expectations from many sources, such as past experiences, word of mouth, and advertising. Customers compare the perceived service with the expected service. If the perceived service falls below the expected service, customers are disappointed.
- If the perceived service meets or exceeds their expectations, they are suitable to use the provider again. Successful companies add benefits to their offering that not only satisfy customers but surprise and delight them.
