

THE REVOLUTION IN MANNERS AND MORALS

A FIRST-CLASS REVOLT AGAINST THE accepted American order was certainly taking place during those early years of the Post-war Decade, but it was one with which Nikolai Lenin had nothing whatever to do. The shock troops of the rebellion were not alien agitators, but the sons and daughters of well-to-do American families, who knew little about Bolshevism and cared distinctly less, and their defiance was expressed not in obscure radical publications or in soap-box speeches, but right across the family breakfast table into the horrified ears of conservative fathers and mothers. Men and women were still shivering at the Red Menace when they awoke to the no less alarming Problem of the Younger Generation, and realized that if the constitution were not in danger, the moral code of the country certainly was.

This code, as it currently concerned young people, might have been roughly summarized as follows: Women were the guardians of morality; they were made of finer stuff than men and were expected to act accordingly. Young girls must look forward in innocence (tempered perhaps with a modicum of physiological instruction) to a romantic love match which would lead them to the altar and to living-happily-ever-after; and until the "right man" came along they must allow no male to kiss them. It was expected that some men would succumb to the temptations of sex, but only with a special class of outlawed women; girls of respectable families were supposed to have no such temptations. Boys and girls were permitted large freedom to work and play together, with decreasing and well-nigh nominal chaperonage, but only because the code worked so well on the whole that a sort of honor system was supplanting supervision by their elders; it was taken for granted that if they had been well brought up they would never take advantage of this freedom. And although the attitude toward smoking and drinking by girls differed widely in different strata of society and different parts of the country, majority opinion held that it was morally wrong for them to smoke and could hardly imagine them showing the effects of alcohol.

The war had not long been over when cries of alarm from parents, teachers, and moral preceptors began to rend the air. For the boys and girls just growing out of adolescence were making mince-meat
