Reason Rule Revolt In English Classicism:

Reason, Rule, and Revolt in English Classicism Francis Galloway,1950 *Formation of English Neo-Classical Thought* James William Johnson,2015-12-08 This book reexamines some of the prevalent critical assumptions about English Neo Classical thought and literature and tests them by viewing Neo Classicism within its intellectual tradition and its self defined limits Originally published in 1967 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Studies in Criticism and Aesthetics, 1660-1800* Howard Anderson,John S. Shea,1967-01-01 *Studies in Criticism and Aesthetics 1660 1800* was first published in 1967 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions In this volume nineteen contributors in as many essays discuss various aspects of critical and aesthetic development in the late seventeenth and the eighteenth centuries from the time of Dryden to Wordsworth This was a period in which traditional literary criticism progressed in important new directions and which saw the rise of aesthetic theory The book is published in honor of Samuel Holt Monk professor of English at the University of Minnesota and distinguished American scholar in the field of eighteenth century English literature literary criticism and aesthetics The essays all of which were written for this volume analyze the literary theories and assumptions of some of the most important artists and critics of the time as well as the aesthetic theories which influenced painting and literature During the period under discussion the progress of social and philosophical thought stimulated an intensive examination of the nature and function of art Although neoclassical ideals dominated Restoration criticism and continued to influence Pope and later critics like Johnson and Reynolds other tendencies were gaining ground and throughout the eighteenth century the effort to reconcile a growing interest in the pleasing emotions with the tenets of classicism created criticism and aesthetic theory of extraordinary complexity These essays illuminate that complexity without oversimplifying it The book is illustrated with reproductions of works of art of the period In addition to the essays there is a bibliography of Professor Monk s writings *Homer's Original Genius* Kirsti Simonsuuri,1979-03-15 *The querelle des anciens et des modernes* the question whether writers should imitate the classics or use literary forms which seemed more suited to their own era had been debated in Europe since the earliest days of the Renaissance This book analyses the development of the querelle following the adoption of the argument of the modernist faction of seventeenth century France **Dryden's Classical Theory of Literature** Edward Pechter,1975-03-20 Professor Pechter s book attempts to describe the consistent structure of both style and method within which Dryden examines orders and evaluates literary experience

This mode permits Dryden to recognise the real differences between French and English drama Virgilian and Ovidian style judgement and fancy to take some of the more familiar from among Dryden s typical conjunctive pairs without either merging their differences into some grand synthesis or transforming them into mutually exclusive antitheses Dryden s is above all a comprehensive theory of literature which aims at responding to a broad range of various literary styles genres faculties and effects Dryden s balance is classical the poise of the golden mean and Professor Pechter endeavours to give fresh life to classical as an epithet often previously applied to Dryden Ranging among writers in ancient Greece and Rome and among Dryden s contemporaries in England and France the author outlines a rich literary tradition within which Dryden s criticism is more easily appreciated and better understood *Studies in Criticism and Aesthetics* Howard Anderson, **The Aesthetic State** Josef Chytrý, 2024-07-26 Shortly after the middle of the eighteenth century a number of thinkers from the German speaking lands began to create a paradigm drawn from their impressions of a distant historical reality ancient Athens added to it a new mode of thought modern dialectics and at times even paid homage to the ancient Greek deity Dionysos to materialize their longing for an ideal The influence of these forces came to permeate modern German consciousness deifying the concept and activity of art reviving the Platonic and Sanskrit vision of the cosmos as play and aesthetic creation and projecting a way of life and labor that would honor not the commodity but the aesthetic product With rigorous commitment to primary sources and an unflinching critical engagement with the ideas and concrete situations they raise Josef Chytrý provides a comprehensive and extensive study of this central motif in German thought from Winckelmann to Marcuse Chytrý takes aesthetic state to signify the concentrated modern intellectual movement to revitalize the radical Hellenic tradition of the polis as the site of a beautiful or good life The movement begins with the classicism of Winckelmann Wiemar aesthetic humanism Wieland Herder Goethe and Schiller s formal theory of the aesthetic state and continues through the idealism of the Swabian dialecticians Holderlin Hegel and Schelling and the realism of Marx Wagner and Nietzsche It culminates in the postrealism of Heidegger Marcuse and the aesthetic modernist artist Walter Spies who initiated a dialogue with the non Western theatre state of the isle of Bali Josef Chytrý concludes that the future speculation on the ideal of an aesthetic state must come to terms with the postrealist themes of ontological anarchy aesthetic ethos and theatre state In a bold effort to stimulate such speculation Chytrý indicates how proponents of the aesthetic state might join forces with Rawlsian political theory to promote further the organon of persuasion that in his view serves as the common fount for the ancient dialectical and contractarian quests for the polis This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1989 *Latitude and Restoration Criticism* Thomas A.
