Binomials in Late Middle English to Early Modern English Akinobu Tani, 2025-03-18 This book charts the development of style and lexicon in the English language from Late Middle English to Early Modern English through the analysis of binomials across a wide range of texts and genres The volume elucidates the forms functions and origins of binomials otherwise understood as word pairs such as safe and sound as they manifest in representative prose texts from the fourteenth and fifteenth centuries and in the Helsinki Corpus from the fourteenth through to the early eighteenth centuries The book begins with cross comparative analyses of binomials examining their frequency etymological makeup and repetition in prose texts including Chaucer and Malory to explore the stylistic characteristics of each text toward zooming out to examine their development in texts across different genres from political to philosophical to legal texts in the Helsinki Corpus In charting binomial development over both time and text type the volume offers readers a unique historical perspective into the evolution of phraseology from Late Middle English through to Early Modern English and in turn a solid foundation for future research on lexical development in the English language This book will be of interest to scholars in English historical linguistics English stylistics English corpus linguistics and English lexicology Chapter 8 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution NonCommercial NoDerivatives CC BY NC ND 4.0 International license

Publications of the Modern Language Association of America, 1893 [Revival: A History of Modern Culture: Volume II \(1934\)](#) Preserved Smith, 2018-01-16 The understanding of history can be advanced only by the combination or alternation of analysis and synthesis Detailed research and generalizing survey are not antiethical but complementary For a long time however the specialist has reigned supreme in our schools The need is now surely for a return to synoptic writing The present work was undertaken to supply the need of a synthesis It is a map of a large region not a geological chart of a square mile or the plan of a single city Its value if any lies in its view of the interrelations of large tracts of social and intellectual life not in the intensive investigation of narrow fields
