Thomas Hoffmann-Walbeck,2021-09-23 This book describes basic concepts of workflow automation in the graphic industry
There are three main chapters Scope of Workflows in the Printing Industry Production Models and Metadata Formats The
book does not describe the individual business and production steps for manufacturing a print product Rather it describes
what kinds of data exchanges are required between management software and devices to make the automatic execution of
processes possible Primary audience is students studying graphic arts technology practitioners at printing and
manufacturing companies and computer scientists who are interested in workflow related matters It is presupposed that the
reader is familiar with the basic procedures in the printing industry as well with the fundamental concepts of IT technology
