Build Your First Website Julian Jensen,2025-12-15 Build Your First Website is a practical beginner friendly guide designed to take you from zero experience to confidently building and launching your own website using HTML CSS JavaScript and visual assets This book is not theory

heavy or filled with confusing jargon. Instead, it follows a hands-on, project-based approach allowing you to learn by doing. From writing your very first HTML tag to styling layouts with CSS, adding interactivity with JavaScript, and working with images, icons, and media, every concept is explained clearly and applied immediately. You'll start by understanding how websites actually work, including how browsers interpret code and how files are structured. Then, step by step, you'll build real web pages while learning how to structure content using clean semantic HTML, design modern responsive layouts with CSS, add interactivity and logic using JavaScript, work with images, icons, fonts, and visual assets, organize files like a real developer, debug common beginner mistakes, and prepare your website for publishing online. This book is ideal for absolute beginners, students, self-taught learners, entrepreneurs, creators, and anyone who wants to build websites without relying on templates or page builders. No prior coding experience is required. By the end of this book, you won't just understand how websites work; you'll have built one yourself with skills that form a solid foundation for web development, frontend frameworks, and future programming learning. Whether your goal is to start a tech career, build personal projects, or simply understand the web better, *Build Your First Website* gives you the confidence and practical skills to begin.
