Comparing Governance Systems in Cuban Cooperatives: A Study of Producer and Worker Cooperatives in Agriculture, Industry, and Services

Camila Piñeiro Harnecker 

8.1 Introduction

Cuba has the second highest number of cooperatives in the Americas relative to population, and also one of the highest numbers of producer and worker cooperatives worldwide relative to population.¹ While most Cuban cooperatives are in agriculture, they are also increasingly observed in industry and services over the last decade.

The importance of cooperatives for the Cuban revolutionary process has varied according to the hegemony gained within leadership by the most emancipatory or transformative tendencies of the Revolution.

¹ After Venezuela (where around 15,000 cooperatives are estimated to be active), Cuba has the second highest number of cooperatives relative to its population in the Americas.
