Producing Guanxi:

Producing Guanxi Andrew B. Kipnis, 1997 Throughout China the formation of guanxi or social connections involves friends families colleagues and acquaintances in complex networks of social support and sentimental attachment Focusing on this process in one rural north China village Fengjia Andrew Kipnis shows what guanxi production reveals about the evolution of village political economy kinship and gender and local patterns of subjectivity in Dengist China His work offers a detailed description of the communicative actions such as gift giving being a host or guest participating in weddings or funerals that produce manage and deny guanxi in a specific time and place Kipnis also offers a rare comparative analysis of how these practices relate to the varied and variable phenomenon of guanxi throughout China and as it has changed over time Producing Guanxi combines the theory of Pierre Bourdieu and the insights of symbolic anthropology to contest past portrayals of guanxi as either a function of Chinese political economics or an unchanging Confucian social structure In this analysis guanxi emerges as a purposeful human effort that makes use of past cultural logics while generating new ones By exploring the role of sentiment in the creation of self Kipnis critiques recent theories of subjectivity for their narrow focus on language and discourse and contributes to the anthropological discussion of comparative selfhood Navigating a path between mainstream social science and abstract social theory Kipnis presents a more nuanced examination of guanxi than has previously been available and contributes generally to our understanding of relationships and human action

Making the Foreign Serve China Anne-Marie Brady, 2003-09-08 This book provides the

first detailed analysis of a crucial and distinctive element of Chinese foreign policy Anne Marie Brady follows the development of the Chinese Communist Party's foreign affairs system since 1921 focusing on waishi the external policies intended to influence and control both foreigners themselves as well as Chinese citizens contact with and perception of outsiders The term also comprises China's external relations both official state to state and so called unofficial or people to people diplomacy In effect waishi activities encompass all matters related to foreigners and foreign things not merely diplomacy By managing the foreign presence in China and China's contacts with the outside world and by controlling the Chinese population the author argues that waishi has proven to be one of the most effective tools in the CCP's repertoire for building and then sustaining its hold on power Drawing for the first time on policy documents that underpin the phenomena they describe Brady analyzes trends and developments in waishi during each chronological period The book elucidates how the CCP's policies evolved In the 1930s the need for a broad united front in international relations warred with the desire to control the foreign presence in China in the 1940s and 1950s the Sino Soviet alliance and ridding China of the traces of the semi colonial past took precedence in the 1960s the Sino Soviet split led to China's claim as the center of world revolution and in the past twenty years of reform the focus has been the ongoing quest to create a modern nation state as China opens up to the outside world The author considers waishi's deeper meaning as an overriding approach to the foreign which links state to state diplomacy with the management of the foreign presence in China Her groundbreaking research is based on a previously unexplored genre of waishi materials almost all classified in Chinese extensive interviews with waishi officials and foreign participant

Practicing Social Science Devorah Kalekin-Fishman, 2016-12-01 How is the process of globalization effecting changes in the structure of knowledge in sociology This path breaking volume looks at the human dimension of developments in the discipline by compiling a set of interviews that exemplify the life and work of a sociologist today Their ideas and conceptualizations show to what extent a paradigm shift has taken root answering questions such as whether sociology still remains a differentiated relatively autonomous social science The chosen interviewees are about equally divided according to gender and have been selected from among professional sociologists in different parts of the globe with an emphasis on areas that are under represented in English publications such as East Asia Latin America and Africa Analysis focuses on changes which are becoming clear from the on going confrontation between traditional sociology which emerged as a project of modernity and the sociology practiced by sociologists who are called upon to adapt the discipline to the upheavals of the twenty first century

Technomobility in China Cara Wallis, 2015-03-06 Winner of the 2014 Bonnie Ritter Book Award Winner of the 2013 James W Carey Media Research Award As unprecedented waves of young rural women journey to cities in China not only to work but also to see the world and gain some autonomy they regularly face significant institutional obstacles as well as deep seated anti rural prejudices Based on immersive fieldwork Cara Wallis provides an intimate portrait of the social cultural and economic implications of mobile communication for a group of young women

engaged in unskilled service work in Beijing where they live and work for indefinite periods of time While simultaneously situating her work within the fields of feminist studies technology studies and communication theory Wallis explores the way in which the cell phone has been integrated into the transforming social structures and practices of contemporary China and the ways in which mobile technology enables rural young women a population that has been traditionally marginalized and deemed as backward and other to participate in and create culture allowing them to perform a modern rural urban identity In this theoretically rich and empirically grounded analysis Wallis provides original insight into the co construction of technology and subjectivity as well as the multiple forces that shape contemporary China China Verner Worm,2008 The book looks at the main causes behind the impressive economic growth in China and in particular explores the major role that FDIs play in China The authors cover aspects of China s economic globalization both from a macro as well as a micro oriented approach On the macro oriented side the volume focuses on FDIs role in itself and gives a detailed distribution of the origin of the investment at well as the destination in different provinces On the micro oriented side the book explains how guanxi capital can be a sustainable competitive advantage The book also considers the increasing number of Chinese tourists Although the number of people who can afford a trip to the West in limited China s integration in the world economy present an opportunity for Chinese business travellers to go overseas to learn more about business in other countries R sum de l diteur Politics in China F. Mengin,J. Rocca,2016-09-27 Faced with the usual list of paradoxes that plague our views of China it is a communist regime with a capitalist economy an authoritarian state with an entrepreneurial spirit a unified nation with tendencies toward fragmentation the contributions to this volume work to go beyond them and to seek new paths to understanding China To do so the essays avoid the conventional approaches toward Chinese politics that focus on either evolutionist culturally bound or functionalist role bound issues Rather than separate state from society these essays explore how the interweaving of these different spheres creates a hazy border between them The contributors explore the moving frontiers between other spheres as well such as rural and urban populations internal evolution and external influence and money and politics This book does not aim to offer a new framework of analysis for understanding Chinese politics but to open up new directions for research and study on the topic The internationally diverse scholars in this volume offer readers an intriguing look at the present and future of China research *Creating Market Socialism* Carolyn L. Hsu,2007-09-03 Based on interviews with ordinary Chinese citizens this work examines how people as opposed to Communist Party elites are establishing the new economic order in China **Handbook of Comparative and Development Public Administration** Ali Farazmand,2019-02-21 With contributions from nearly 80 international experts this comprehensive resource covers diverse issues aspects and features of public administration and policy around the world It focuses on bureaucracy and bureaucratic politics in developing and industrialized countries and emphasizing administrative performance and policy implementation as well as political system maintenance and regime enhancement The book covers the history of public

administration and bureaucracy in Persia Greece Rome and Byzantium and among the Aztecs Incas and Mayas public administration in small island states Eastern Europe and ethics and other contemporary issues in public administration
