Opera, Or the Undoing of Women Catherine Clément, 1988

The Women of Quyi Francesca R. Sborgi Lawson, 2017-02-17 Why has the female voice as the resonant incarnation of the female body inspired both fascination and ambivalence Why were women restricted from performing on the Chinese public stage How have female roles and voices been appropriated by men throughout much of the history of Chinese theatre Why were the women of quyi a community of Chinese female singers in Republican Tianjin able to become successful respected artists when other female singers and actors in competing performance traditions struggled for acceptance Drawing substantially on original ethnographic fieldwork conducted in the 1980s and 1990s Francesca R Sborgi Lawson offers answers to these questions and demonstrates how the women of quyi successfully negotiated their sexuality and vocality in performance Owing to their role as third person narrators the women of quyi bridged the gender gap creating an androgynous persona that de emphasized their feminine appearance and at the same time allowed them to showcase their female voices on public stages places that had been previously unwelcoming to female artists This is a story about female storytellers who sang their way to respectability and social change in the early decades of the twentieth century by minimizing their bodies in order to allow their voices to be heard

Postopera: Reinventing the Voice-Body Jelena Novak, 2016-03-09 Both in opera studies and in most operatic works the singing body is often taken for granted In Postopera Reinventing the Voice Body Jelena Novak reintroduces an awareness of the physicality of the singing body to opera studies Arguing that the voice body relationship itself is a producer of meaning she furthermore posits this relationship as one of the major driving forces in recent opera She takes as her focus six contemporary operas La Belle et la Bête Philip Glass Writing to Vermeer Louis Andriessen Peter Greenaway Three Tales Steve Reich Beryl Korot One Michel van der Aa Homeland Laurie Anderson and La Commedia Louis Andriessen Hal Hartley which she terms postoperas These pieces are sites for creative exploration where the boundaries of the opera world are stretched Central to this is the impact of new media a desynchronization between image and sound or a redefinition of body voice gender relationships Novak dissects the singing body as a set of rules protocols effects and strategies That dissection shows how the singing body acts within the world of opera what interventions it makes and how it constitutes opera's meanings

Davis, Maglina Lubovich, 2009 White heterosexual middle class men have long served as the standard for masculine beauty even if such men have refused to embrace this term This study seeks to denaturalize this standard by exploring the connections between beauty and the broad spectrum of masculinities The chapters included in Hunks Hotties and Pretty Boys contribute primarily to the field of gender studies specifically masculinity studies They consider twentieth century representations of male beauty through a variety of mediums performance literature art photography film and television Although the contributors hail from both the humanities and the social sciences all share a concern for how beauty informs shapes defines and re defines our understanding of masculinity itself These scholars investigate a range of historical periods and draw from a broad scope of critical approaches Some interrogate male beauty through the female gaze and look to the influence of female performance on notions of masculine beauty Others examine how queer and racial constructions of male beauty refuse and offer alternatives to hegemonic models of identity Another revisits previous philosophical and theoretical conceptions of beauty only to
