Miscellaneous Studies Walter Pater, 2017-04-21 Some indeed may find in the very delicacy the curiosity with which such distinctions are drawn by Pascal's friends as well as by their foes only the impertinence the profanities of the theologian by profession all too intimate in laying down the law of the things he deals with the things which eye hath not seen pressing into the secrets of God's sublime commerce with men in which it may be He differs with every single human soul by forms of thought adapted from the poorest sort of men's dealings with each other from the trader or the attorney Pascal notes too the impious buffoneries of his opponents The good Fathers perhaps only meant them to promote geniality of temper in the debate But of such failures failures of taste of respect towards one's own point of view the world is ever unamiably aware and in the Letters there is much to move the self-complacent smile of the worldling as Pascal describes his experiences while he went from one authority to another to find out what was really meant by the distinction between grace sufficient grace efficacious grace active grace victorious He heard for instance that all men have sufficient grace to do God's will but it is not always prochain not always at hand at the moment of temptation to do otherwise **Miscellaneous Studies in**

Miscellaneous Studies in the History of Music (Classic Reprint) O. G. Sonneck,2017-09-08 Excerpt from *Miscellaneous Studies in the History of Music* This was certainly an amiable compliment But it is evident from his letters that he longed for Vienna and its more opulent resources for the Prague opera orchestra was even in contemporary estimation a very small one The characteristic color of Mozart s instrumentation would not be Vitiated in the least if the Munich Intendant chose to augment his orchestra by eight or ten string players Even then the strings would number only twenty two against twelve wind instruments and a drummer The Introduction and the Descent into Hell would gain decidedly thereby and the rest would lose nothing About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *Miscellaneous Studies in the History of Music* O. G. Sonneck,2015-06-02 Excerpt from *Miscellaneous Studies in the History of Music* Unlike my book *Suum cuique* this collection is devoted almost exclusively to historical studies The one essay that is not mainly historical has been included for the purpose of showing why it is still impossible in America to attempt historical research work of the kind that attracted me in any but exceedingly few of our most famous libraries This lack of essential study material whether antiquarian or modern whether literature or scores has been keenly felt even by those students of musical history who specialize in subjects of a more general local biographical or evolutionary interest It indicates a sad state of affairs and explains why American contributions to musical history of more than popular and limited pedagogical value are so scanty why in comparison with Europe those engaged here in scholarly research or codification of research are so few and why these few men and women have such a disheartening outlet for their life work Most of the essays in this volume were prepared from material available at the Library of Congress Indeed it is safe to say that whatever their intrinsic historical value may be they could have been written nowhere in America except in Washington They owe their origin mostly to minor historical problems that confronted me in my constructive work as Chief of the Music Division of the Library of Congress from 1902 to 1917 The essays are reprinted here by permission practically as

they appeared in various magazines at the time of writing I have not attempted to incorporate the subsequent finds of other historians About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
