

## Philippine Professional Standards for Teachers (PPST): 7 DOMAINS OF TEACHING COMPETENCE

Professional standards are important in the continuing professional development and advancement of teachers as articulated in DepEd Order 42, s. 2017, Entitled "National Adoption and Implementation of the Philippine Professional Standards for Teachers (PPST)," It shall serve as framework for teacher quality and professional development.

PPST was developed as a result of the changes brought about by the K to 12 reform, ASEAN integration, globalization, 21<sup>st</sup> century learners and the call for the rethinking of the National Competency-Based Teacher Standards (NCBTS).

Specifically, PPST is designed to set out clear expectations of teachers along well-defined career stages of professional development from beginning to distinguished practice, engage teachers to actively embrace a continuing effort in attaining proficiency, and apply a uniform measure to measure teacher performance, identify needs, and to provide support for professional development.

The PPST defines teacher quality in the Philippines. It has seven domains and 37 strands that pertain to more specific dimensions of teacher practices.

**DOMAIN 1 - Content Knowledge and Pedagogy:** emphasizes the importance of mastery of content knowledge and its interconnectedness within and across curriculum areas, coupled with a sound and critical understanding of the application of theories and principles of teaching and learning. Teachers apply developmentally appropriate and meaningful pedagogy grounded on content knowledge and current research. They display proficiency in Mother Tongue, Filipino, and English to facilitate the teaching and learning process, as well as exhibit the needed skills in the use of communication strategies, teaching strategies and technologies to promote high-quality learning outcomes.

Domain 1 - Content Knowledge and Pedagogy, is composed of seven strands:

1. Content knowledge and its application within and across curriculum areas
2. Research-based knowledge and principles of teaching and learning
3. Positive use of ICT
4. Strategies for promoting literacy and numeracy
5. Strategies for developing critical and creative thinking, as well as other higher-order thinking skills
6. Mother Tongue, Filipino and English in teaching and learning
7. Classroom communication strategies

**DOMAIN 2 - Learning Environment:** refers to learning environments that are safe, secure, fair, and supportive in order to promote learner responsibility and achievement. Teachers create an environment that is learning-focused and efficiently manage learner behavior in a physical and virtual space. They utilize a range of resources and provide intellectually challenging and stimulating activities to encourage constructive classroom interactions geared toward the attainment of high standards of learning.

Domain 2 - Learning Environment, consists of six strands:

1. Learner safety and security
2. Fair learning environment
3. Management of classroom structure and activities
4. Support for learner participation
5. Promotion of purposive learning
6. Management of learner behavior

**DOMAIN 3 - Diversity of Learners:** highlights the establishment of learning environments that are responsive to learner diversity. Teachers respect learners' diverse characteristics and experiences as inputs to the planning and design of learning opportunities. They encourage the celebration of diversity in the classroom and the need for teaching practices that are differentiated to encourage all learners to be successful citizens in a changing local and global environment.
