Pollution Control In East Asia:

Pollution Control in East Asia Michael T. Rock, 2010-09-30 Why do some economies seem to excel at effective pollution management while others miss the mark when responding to deteriorating urban environments These studies of pollution management in East Asia s newly industrialized economies NIEs include successful government responses in Singapore and Taiwan qualified results in China and Indonesia and much more limited success in Thailand and Malaysia In each example Michael Rock considers the starting point of the economy as it began its path toward industrialization in the post World War II period He discusses the relevant historical and political context the pressures placed on the political system from domestic and international sources and the influence of ongoing trends in East Asia for democratization and economic liberalization Rock s text makes it clear that each economy found unique innovative ways to link environmental protection to its own political and economic institutions Thus while public pressure from both home and abroad gave strong impetus to successful programs in Taiwan the development of policy in Singapore involved limited public review and a centralized government led process The result of Rock s scholarship is a book that provides important lessons without being reductionist The book offers insights to apply to pollution management in a diverse range of developing nations but avoids attempts for precise prescriptions or universally appealing normative answers A copublication of Resources for the Future and the Institute of Southeast Asian Studies ISEAS **Strategy for Air Pollution Control in East Asia** 1996 **Environmental**
