epitaph the rest of the world forget that they have ever been Such cases indeed are fewer than might have been supposed Even where death seems to be complete where no smallest trace of some once famous theory appears to survive a fragment of it will reappear generations later as part of the living tissue of the most advanced speculation 1 But in the case of science and religion the main theme has never wholly lost its interest and each generation insists on resurveying the subject from its own particular point of view About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
