Volume III Accessory Sex Glands Edited by K G Adiyodi Accessory Sex Glands is the third volume in the encyclopaedic series and provides very valuable information some hitherto unpublished on the distribution structure origin physiology biochemistry pharmacology and evolution of the accessory sex glands in different groups of invertebrates Volumes I and II of this series published by Wiley have given detailed accounts of the structure origin composition and physiology of female and male gametes and also provided some information on the mechanisms controlling their production The secretions of accessory sex glands are indispensable for several key aspects of gamete physiology and for successful fertilization and development in many internally fertilizing invertebrates Interestingly enough accessory sex gland secretions are produced in some species at least under the influence of gonadotrophic hormones as are the gametes themselves The data on invertebrate accessory sex glands are scattered in various journals and have not been so far collected critically evaluated and published in book form This volume thus fills a void and serves as an indispensable corollary and companion to the two volumes that have already appeared on gametology in the series Contents Series Preface Preface to Volume III Systematic Resume of the Invertebrates Platyhelminthes Turbellaria S S Guraya and V R Parshad Nemertina M Gontcharoff Gnathostomulida Marlene Mainitz Rotifera John J Gilbert Gastrotricha W D Hummon and M R Hummon Nematoda L A Fitzgerald and W Eugene Foor Acanthocephala David W T Crompton Mollusca N W Runham Annelida K G Adiyodi Onychophora Hilke Ruhberg and Volker Storch Arthropoda Crustacea K G Adiyodi and G Anilkumar Arthropoda Insecta Cedric Gillott Arthropoda Myriapoda J M Demange Pentastomida John Riley Species Index Subject Index **Reproductive Biology of Invertebrates** Alexander S.
