Research In Economic History Volume 7:

Research in Economic History Christopher Hanes, Susan Wolcott, 2016-04-13 The latest volume in the series Research of Economic History contains articles on the economic history of Europe and the U S **An Economic History of Indonesia** Jan Luiten van Zanden, Daan Marks, 2013-05-02 Based on new datasets this book presents an economic history of Indonesia It analyses the causes of stagnation of growth during the colonial and independence period making use of new theoretical insights from institutional economics and new growth theory The book looks at the major themes of Indonesian history colonial exploitation and the successes and limitations of the post 1900 welfare policies the price of instability after 1945 and the economic miracle after 1967 The book not only discusses economic change and development or the lack thereof but also the institutional and socio political structures that were behind these changes It also presents a lot of new data on the changing welfare of the Indonesian population on income distribution and on the functioning of markets for rice credit and labour Concluding with a discussion on whether the poor profited from the economic changes this book is a useful contribution to Southeast Asian Studies and International Economics **Research in Economic History** Alexander J. Field, Gregory Clark, William A. Sundstrom, 2007-12-06 Includes six papers in quantitative economic history This volume considers growth in colonial North America and examines the role of bank failures in propagating the Great Depression It also examines the heights of rich and poor youth in England in the late eighteenth and early nineteenth century *An Economic History of the First German Unification* Ulrich Pfister, Nikolaus Wolf, 2023-03-27 There is a striking chronological parallel between Germany's transition from a post Malthusian regime to modern economic growth and the formation of a modern nation state between the late 1860s and the early 1880s which culminated in the events of 1871 The central question of this book is whether and how such state formation did in fact contribute to economic development Twenty chapters written by leading experts in their respective fields deal with various aspects of the book's main question Together they identify three channels by which national unification contributed to Germany's economic development 1 Creation of a nation state completed a process of institutional Unification of a large inland area and thereby increased the integration of domestic markets 2 Unification raised the capacity of the political system with respect to regulating complex domains such as stock companies patenting and social insurance 3 The emerging political regime of market preserving federalism promoted the quality of economic institutions Moreover a set of chapters dealing with the experience of other European economies apart from Germany during the second half of the nineteenth century highlight additional factors in nineteenth century economic development most notably the first wave of modern globalization and economic geography Readers interested in the history of state building and the economic history of Germany and of Europe in general during the age of industrialization and globalization and students of the economic effects of political integration and decentralized state growth will all gain much from this book **Research in Economic History** Alexander J. Field, Gregory Clark, 2004 [Proceedings for the 8th](#)

European Conference on Innovation and Entrepreneurship Stijn Kelchtermans, Filip de Beule, 2013 **Bulletin of the Institute of Historical Research** University of London. Institute of Historical Research, 1930 Contains reports on archives and on the problems and methods of historical research summaries of unpublished historical theses produced at the institute addenda and corrigenda to the Dictionary of national biography the New English dictionary and other standard collections the migrations of historical manuscripts etc etc Research in Economic History Robert E. Gallman, 1977 **40 Years of Research on Rent Seeking 2** Roger D. Congleton, Arye L. Hillman, Kai A. Konrad, 2008-08-01 The last survey of the rent seeking literature took place more than a decade ago Since that time a great deal of new research has been published in a wide variety of journals covering a wide variety of topics The scope of that research is such that very few researchers will be familiar with more than a small part of contemporary research and very few libraries will be able to provide access to the full breadth of that research This two volume collection provides an extensive overview of 40 years of rent seeking research The volumes include the foundational papers many of which have not been in print for two decades They include recent game theoretic analyses of rent seeking contests and also applications of the rent seeking concepts and methodology to economic regulation international trade policy economic history political competition and other social phenomena The new collection is more than twice as large as any previous collection and both updates and extends the earlier surveys Volume I contains previously published research on the theory of rent seeking contests which is an important strand of contemporary game theory Volume II contains previously published research that uses the theory of rent seeking to analyze a broad range of public policy and social science topics The editors spent more than a year assembling possible papers and although the selections fill two large volumes many more papers could have been included **Well-being in India** Lance Brennan, John McDonald, Ralph Shlomowitz, By using data on the height and weight of Indians measured in the nineteenth and twentieth centuries for commercial or scientific reasons the studies in this book trace trends in rural well being in North and South India over time and consider the comparative well being of different groups of men and women It also addresses questions of infant and child health and examines the influence of reservation for social groups on the physical markers of well being

The Economic History Review Ephraim Lipson, Michael Moisesy Postan, H. J. Habakkuk, 1929 Broad coverage of themes of economic and social change including the intellectual political and cultural implications of these changes **Economic History**, 1929 Historical Abstracts Eric H. Boehm, 1992 **Complexity Economics** Olivér Kovács, 2022-07-15 Our socio economic innovation ecosystem is riddled with ever increasing complexity as we are faced with more frequent and intense shocks such as COVID 19 Unfortunately addressing complexity requires a different kind of economic governance There is increasing pressure on economics to not only go beyond its traditional mainstream boundaries but also to tackle real world problems such as fostering structural change enhancing sustained growth promoting inclusive development in the era of the digital economy and boosting green growth while addressing the divide between the financial sector and the real

economy This book demonstrates how to apply complexity science to economics in an effective and instructive way in the interest of life enhancing policies The book revolves around the non negligible problem of why economics to date seems to be inadequate in guiding economic governance to navigate through real and ever intensifying complex socio economic and environmental challenges With its interdisciplinary approach the book scans the nuanced nexus between complexity and economics by incorporating as well as transcending the state of the art literature It identifies ways to trigger opportunities for behavioural change in the economic profession with respect to how and what to teach introducing and developing further complexity economics taking into account the configuration of its main principles and outlining the silhouette of next generation economic governance The book deciphers recommendations for economic theory practice education and economic governance It will be of interest to students scholars academics think tank researchers and economic policy practitioners at the national and or supranational levels
