Repression and Mobilization Christian Davenport, Hank Johnston, Carol McClurg Mueller, 2005-01-01 In was the summer of 2001 when political scientists and sociologists gathered at the University of Virginia to present new information and assess the status of study about political mobilization and political repression The 10 papers presented and printed here focus on interactions between protesters and police case studies come from Germany the **Repression and Mobilization** Christian Davenport, Hank Johnston, Carol McClurg Mueller, 2005 Introduction repression and mobilization insights from political science and sociology Christian Davenport Protest mobilization protest repression and their interaction Clark McPhail and John D McCarthy Precarious regimes and matchup problems in the explanation of repressive policy Vince Boudreau The dictator s dilemma Ronald A Francisco When activists ask for trouble state dissident interactions and the New Left cycle of resistance in the United States and Japan Gilda Zwerman and Patricia Steinhoff Talking the walk speech acts and resistance in authoritarian regimes Hank Johnston Soft repression ridicule stigma and silencing in gender based movements Myra Marx Ferree Repression and the public sphere discursive opportunities for repression against the extreme right in Germany in the 1990s Ruud Koopmans On the quantification of horror notes from the field Patrick Ball Repression mobilization and explanation Charles Tilly How to organize your mechanisms research programs stylized facts and historical narratives Mark Lichbach **How Social Movements Die** Christian Davenport, 2015 This book argues that social movement death is the outgrowth of a coevolutionary dynamic whereby challengers influenced by their understanding of what states will do to oppose them attempt to recruit motivate calm and prepare constituents while governments attempt to hinder all of these processes at the same time **Debating Regime Legitimacy in Contemporary China** Suisheng Zhao, 2018-10-11 This comprehensive volume is a three part study of whether the Chinese political system has maintained a significant degree of regime legitimacy in the context of rising domestic discontent in particular the popular protests against socio economic inequality and environment degradation Part I presents the scholarly debate on the theoretical refinement and empirical measurement of regime legitimacy in contemporary China Part II focuses on the challenges to regime legitimacy of the increasingly widespread popular protests and civil activism Part III examines the regime s responses to these challenges including coercive repression adaptation and economic performance This book finds that while repression can hardly stop popular protests and often backfires economic performance legitimacy is increasingly difficult to be maintained The only way out is the adaptation to the changing domestic and international environment The chapters in this collection were originally published in the Journal of Contemporary China [Protest Politics Today](#) Devashree Gupta, 2023-05-03 Social movements play a vital and increasingly visible role in modern politics Headline grabbing demonstrations against authoritarian governments police brutality economic inequality and other grievances suggest that around the world social movements are seen as powerful catalysts of change In democracies as well as autocracies rich

countries as well as poor citizens turn repeatedly to protest as a way of addressing a range of perceived social ills In this engaging and accessible book Devashree Gupta offers a thorough introduction to the study of social movements in these diverse settings examining their structures and operations to identify the ways in which political and social contexts shape how movements behave and what impacts they have Drawing on multiple theoretical approaches and contemporary case studies Gupta explores how movements think and act strategically learning from past interactions with authorities and the experiences of other movements to find innovative ways to challenge the status quo With suggestions for further reading and questions for class discussion throughout *Protest Politics Today* will be essential reading for students of social movements and contentious politics across the world

Contesting Authoritarianism Dina Bishara,2018-08-30 Successive authoritarian regimes have maintained tight control over organized labor in Egypt since the 1950s And yet in 2009 a group of civil servants decided to exit the state controlled Egyptian Trade Union Federation ETUF thereby setting a precedent for other groups and threatening the ETUF s monopoly Dina Bishara examines this relationship between labour organizations and the state to shed light on how political change occurs within an authoritarian government and to show how ordinary Egyptians perceive the government s rule In particular Bishara highlights the agency of dissident unionists in challenging the state even when trade union leaders remain loyal She reveals that militant sectors are more vulnerable to greater scrutiny and repression and that financial benefits tied to membership in state backed unions can provide significant disincentives against the exit option Moving beyond conventional accounts of top down control this book explores when and how institutions designed for political control become contested from below

Civil Resistance Today Kurt Schock,2015-07-09 From Gandhi s salt march to the US civil rights movement and Occupy Wall Street nonviolent campaigns to promote democracy human rights and social justice have long played an important transformative role in local national and global politics Some have succeeded some have failed but nonviolent action remains a very effective means of achieving significant social and political change In this authoritative book Kurt Schock expertly guides readers through the changing terrain of nonviolent struggle exploring the historical roots and development of modern civil resistance and its proliferation in recent decades Discussing movements against economic and social injustice as well as political oppression he explains how resistance happens and unpacks the complex interactions between state and non state actors that affect the trajectories and outcomes of nonviolent campaigns Drawing on a wealth of empirical data and comparative research *Civil Resistance Today* will be an essential one stop shop for anyone keen to learn more about the methods objectives and outcomes of civil resistance in the contemporary world

Protest and Resistance in the Chinese Party State Hank Johnston,Sheldon Zhang,2022-02-24 Although contemporary China is a repressive state

protests and demonstrations have increased almost tenfold between 2005 and 2015 This is an astounding statistic when one considers that Marxist Leninist regimes of the past tolerated little or no public dissent How can protests become so common in an autocratic state What are the trends of repression and mobilization This collection helps to answer these compelling questions through in depth analyses of several Chinese protest movements and state responses The chapters examine the opportunities and constraints for protest mobilization and explains their importance for understanding contemporary Chinese society

Repertoires and Cycles of Collective Action Mark Traugott,1995 The modern era has generated a bewildering profusion of popular protest including widespread social movements and sporadic revolutionary upheaval Despite the seemingly chaotic character of such collective action social scientists have increasingly noted the remarkable regularities exhibited by even the most tumultuous social change In this volume sociologists political scientists and historians come together to assess the complementary concepts of repertoires and cycles as tools for illuminating the consistent patterns that emerge from the apparent chaos The significance of repertoires recurrent forms or tactics of social protest is explored in an essay on eighteenth and nineteenth century Britain by the originator of the concept Charles Tilly Sidney Tarrow whose work has most directly linked the concept of repertoires with that of cycles the recurrent peaks and troughs in the historical incidence of collective action contributes an essay that focuses on twentieth century Italy Other essays investigate the rhythms and logic of social change in contexts as diverse as sixteenth through nineteenth century Japan nineteenth century Europe and twentieth century America Through inquiries into the consequences of violent repression for social mobilization the struggle to control the linguistic terms of social conflict the unacknowledged antecedents of contemporary movements and the importance of movement families this volume demonstrates the usefulness of these two concepts and defines the relationship between them Collected from past issues of *Social Science History* with a new introduction and two new essays *Repertoires and Cycles of Collective Action* will reward an interdisciplinary audience of readers with the extraordinary vitality that emerges from this rich blend of historical perspectives Contributors Charles Brockett Craig Calhoun Doug McAdam Marc Steinberg Sidney Tarrow Charles Tilly Mark Traugott James White
