

CURRENT AFFAIRS & ENVIRONMENT

"Berrill's account is a compelling story that balances the depressing story of greed and destruction with hopeful ideas and progress that contain the seeds of a way out. But will anyone other than the author believe in the potential opportunity of reform?"
—Tom Ivers, foreword by DAVID SUZUKI

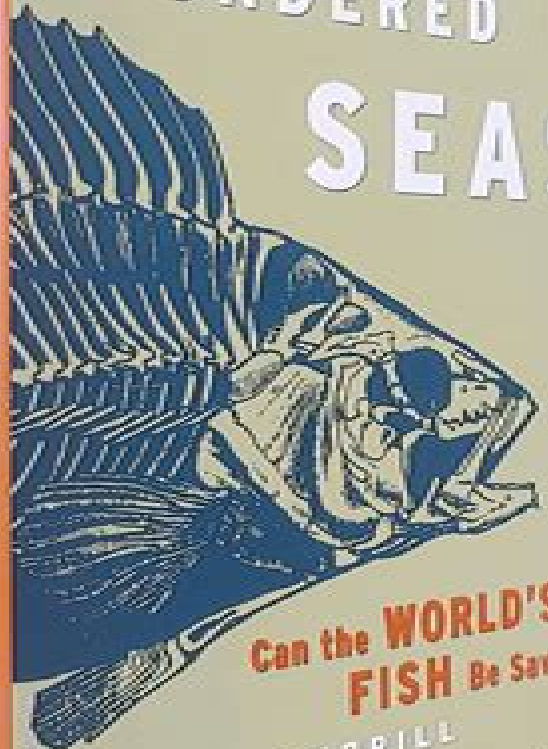

"The ocean is the last frontier, a country untamed, but the case is made persuasively for more thoughtful management. Many countries claim it, in the next few decades billions of tons of fish will be gone or nearly gone and replaced with billions of tons of toxic substances, genetic variety gone or only the meager of the cods and salmon, penguins, and sea turtles. The Plundered Seas is a readable, well-researched, and important book that will help us to see the ocean as it really is, not as we wish it to be. It is a book that should be read by everyone who cares about the future of our planet."
—KATE ANDERSON, editor of The New Yorker
