In Delhi alone, there are over 80,000 trucks that run on the city roads every night. They emit unburnt fossil fuels from their exhausts. Isn't it terrifying that over 1 million seabirds and 100,000 sea mammals are killed by pollution every year? *Why Should I Save Energy?* is a comprehensive book that will introduce children to different forms of energy, history of fossil fuels, great scientists and their inventions, and more importantly, to the problems our planet faces with depletion of natural resources. Filled with eye-opening facts, beautiful pictures, multiple activities, and a quiz that helps reinforce learning, this book is the perfect guide to help you become an energy saver.
