

ANATOMIES

This volume is an exploration of the variety of approaches to hermaphroditism in the eighteenth century. Investigates sexuality as well as the taxonomic discourses of the monstrous and the grotesque, with a specific focus on excess, lack, and sportiveness (play). Further consideration is devoted to legal issues and the social circulation of erotica.

ONANISM

Moving from Foucault's repressive hypothesis to explore this unique valorisation of sexual discourses, the problem of excessive indulgence is investigated in the context of the invention of childhood and puberty. The general causes of a perceived sexual debility are examined. Moreover the links with homo-social and homo-erotic categories are analysed. The exotic origins of the Onanistic disorder are speculated on. Gender-based differences and similarities are also noted. The deployment of impotence as moral and spiritual bankruptcy is investigated. Voyeurism and Narcissism are also explained as related themes in the texts discussed. Finally, the author discusses the role of Gothic and the construction of masculinity in relation to the colonial discourses of Empire. Surveillance and power emerge as key forces in the social, cultural and medical domains.

PROSTITUTION

Whoredom is a deep ditch, wrote William Hale in 1812. This volume explores the reforming zeal and mission that was so prevalent in the eighteenth and nineteenth century. There are many markers of an underlying opposition between married, monogamous, procreative heterosexuality and the useless, affected, non-productive other; in this regard the anti-social aspect of prostitution can be compared with the followers of Onan. Thus social customs and the role of the family, in addition to wider legal discourses are crucial for this investigation. The errant libido is undoubtedly a perceived threat to the work ethic. Moreover narrative elements also construct (as elsewhere) the construction and control of human sexuality. The evangelical and the medical also function and regulate as meta-discourses; and these converge in the ever-present danger of contagion.

SODOMY

The severity of the law was applied in all cases of lewdness and indecency. But what was sodomy? A sin, a behaviour, a phase, an aberration, a novelty, a foreign import, a vicious threat to family values? McCormick explores the characterisation of sodomites across a range of narratives: medical, legal, literary, religious, satirical, and criminal. Other topics include the fop and the molly. How did secrecy alternate with surveillance and the social circulation of transgressive sexual dynamics. 'Go where we will at every time and place, / Sodom confronts and stares us in the face; They ply in public at our very doors ...' (Churchill)
