Rubens A Portrait:

Rubens Paul Oppenheimer,1999 Peter Paul Rubens 1577 1640 is both one of the world s greatest painters and a mystery His monumental canvases featuring battling lions sensual gardens of love and Rubenesque women are viewed with wonder joy and a suspicion that they have little to do with modern times The pre eminent genius of the Baroque who worked as a diplomat and spy and whose paintings are displayed in museums world wide studied and fought over at auctions seems disconnected from the present **Peter Paul Rubens** ,2025 **Rubens in Private** Nils Büttner,Rubenshuis (Antwerp, Belgium),2015 Michelangelo regarded portraiture as a trivial genre and Peter Paul Rubens did not instantly develop a preference for it either Yet Rubens succeeded as none other in endowing his portraits with an almost palpable sense of immediacy and was to become one of the greatest portraitists of all time His most beautiful and surprising portraits are those of his immediate family These intimate pictures were not intended for public display and are therefore considerably freer and more experimental than the likenesses he painted of influential patrons Nothing about these private images seems idealized They are uncommonly honest and veracious and at the same time expressive of great tenderness While the hundreds of letters he wrote reveal very little about his emotional life Rubens s portraits of family members testify in a special way to the affection he felt for his first and second wives his brother and his children *Rubens Drawings* Peter Paul Rubens,1989-04-01 Peter Paul Rubens gifts as an artist were as comprehensive as they were supreme A prolific painter of illimitable resource and invention he was a master of intellect and emotion figure and form color and sweep In all his artistic endeavors he proved himself the true heir of Renaissance art of both the North and the South inspired by and assimilating the best of both Yet he was very much a man of his time and in retrospect the most powerful exuberant and sensuous exponent of the Baroque style in painting His extraordinary drawings reflect all of these qualities but color and in them the viewer can clearly perceive and enjoy at leisure the awesome range of Rubens genius In this superb collection of 44 of his choicest drawings are deeply probing portraits and powerful religious and mythical scenes His self portrait full of opulent and flowing forms reaches out to us with a startling penetrating gaze His individual portraits of a young girl and of George Villiers Duke of Buckingham reveal in both instances a touching sensitivity mixed with aristocratic self possession Here too are two scenes of poignant tenderness suspended in a majestic flow of movement one depicting the entombment of Christ the other Venus lamenting Adonis The exciting The Death of Hippolytus and A Battle of Greeks and Amazons reveal Rubens total command of complex patterns of action and movement These and over three dozen other works offer limitless pleasure and stimulation to all who prize and wish to study the art of drawing at its most inspired Meticulously reproduced on fine quality paper and offered at a very reasonable price this beautiful book belongs with others in your collection reflecting the greatest achievements in Western art **The Family Portraits of Peter Paul Rubens** Olivia Nicole Guyodo,2017 This thesis is concerned with the family portraits of the highly celebrated Flemish painter Peter Paul Rubens 1577 1640 Despite having

received a great deal of fame for his highly dramatic history paintings and magnificent altarpieces his career as a portrait painter has yet to be given the adequate attention it deserves Within the genre of portraiture Rubens oeuvre is made up of a large number of works exceeding well over forty that depict those nearest and dearest to the artist Throughout history these particular works have gone relatively unnoticed Whilst many of Rubens family portraits are mentioned briefly in monographs dedicated to the artist it was not until 2015 following the exhibition Rubens in Private that these works finally received the attention they rightfully deserve The focus of the exhibition was to place a great deal of emphasis on Rubens as a dedicated family man a role he had yet to be recognised in Bringing together and displaying many of the master s portraits of his loved ones the exhibition achieved in celebrating Rubens for the very first time as not only a talented portraitist but also as that of a man deeply moved by his family and friends Although Rubens role as that of a dedicated husband and father will receive a great deal of attention within this study it is not however the main premise of my argument Rather the emphasis of this thesis is on how the artist s family portraits transformed between the years 1609 and 1640 In particular it is the way in which Rubens represented his two wives Isabella Brant 1591 1626 and Helena Fourment 1614 1673 and children which will be the primary concern of this study Without a doubt the context in which these works were executed is essential and necessary in order to obtaining a greater understanding as to why they appear the way they do Thus much of this thesis is concerned with analyzing the paintings in terms of their size over all composition style colour as well as the themes Rubens displayed within each work This thesis aims to both acknowledge and celebrate the family portraits of the master as they are a group of extraordinary works that have been in my opinion received a relatively limited amount of attention throughout history In doing so I aim to shed a great deal of light on just how complex and not so traditional these works are Furthermore there will be a great deal of interest in how the context of the artists life not only affected his family portraits in terms of style and theme but also how they reflected the life of Rubens himself over the course of both of his marriages till his death
