## **Royal Oak Disaster:**

*The Royal Oak Disaster* Gerald S. Snyder, 1976      **Faces of HMS Royal Oak** Dilip Sarkar, 2023-12-30

On 14 October each year a White Ensign is placed on the stern of an upturned warship by Royal Navy divers. This act commemorates the 835 men of HMS Royal Oak who died in 1939 when the battleship was sunk at anchor in Scapa Flow by the German U boat U 47. The sinking of the veteran First World War Revenge class Royal Oak shocked not only the Admiralty but the whole nation. Though Scapa Flow was far from being impregnable as a base for the Royal Navy's Home Fleet it was surrounded by a ring of islands separated by shallow channels subject to fast racing tides. While it was recognized that it was not impervious to enemy submarines measures had been put in place to minimize any such threat. Blockships had been sunk at potentially vulnerable points and anti submarine booms deployed across the wider channels. The outbreak of war in September 1939 saw additional anti submarine measures put in hand. Despite these increased precautions German aerial reconnaissance had spotted weaknesses which were exploited on the night of 13/14 October 1939 by Kapitänleutnant Günther Prien in U 47. The German submarine was able to slip into Scapa Flow undetected and fire three torpedoes towards Royal Oak. Only one torpedo found its mark. A second salvo was fired and this time all three hit the battleship igniting a magazine causing massive damage. Within thirteen minutes HMS Royal Oak had turned over and sank. In *Faces of HMS Royal Oak* Dilip Sarkar not only reveals the tragic and moving stories of many of those who died but also some of the 399 who survived the sinking of the first Royal Navy battleship lost in the Second World War. Through their photographs and in some cases words the horrors of those fateful few minutes as Royal Oak rolled and slid into the cold dark waters of Scapa Flow are relived in startling clarity.

*Nightmare at Scapa Flow* H.J. Weaver, 2012-09-28

A historian examines what really happened when the British World War II battleship was torpedoed by a German submarine off the coast of Orkney. Sinking the battleship HMS Royal Oak in the Royal Navy's home anchorage with the loss of more than 800 of her crew was Germany's first shattering blow against Britain during World War II. Within six weeks the Germans achieved their goal of breaching the defenses of Scapa Flow. Germany claimed the sinking for the submarine U 47 commanded by Lt Günther Prien. Prien and his crew instantly became folk heroes exploited to extract the maximum glory from their deed. A few months later Prien's autobiography *Mein Weg nach Scapa Flow* was published and sold an astonishing 750,000 copies. However there are Royal Oak survivors who while accepting that their ship was torpedoed say Prien and his crew could never have seen the inside of Scapa Flow because Prien's story differs from the truth. Much has been written on what is now one of the greatest submarine exploits of all time. Yet nobody has managed to sift fact from falsehood and reconcile the apparently irreconcilable German and British stories. Author H J Weaver has interviewed Royal Oak survivors, members of U 47's 1939 crew, Lt Prien's widow and members of the firm that published his autobiography. Weaver's quest for the truth led through England, Northern Ireland, Wales, Scotland, Orkney, Norway, West Berlin, Cologne, Freiburg and even distant Amman. Every point of controversy he has patiently investigated until

he was able to set down the documented definitive account of the Royal Oak naval disaster in this book **U-Boat Attack Logs** Daniel Morgan, Bruce Taylor, 2011-11-09 During the Second World War over 250 Allied warships from a dozen navies were sent to the bottom by German U boats This ground breaking study provides a detailed analysis of every sinking for which source material survives from both the Allied and the German sides resulting in detailed treatment of the fate of 110 vessels with the remainder summarised in an extensive appendix Uniquely each entry is built around a specialist translation of the relevant segment of the war diary log of the U boat in question taken directly from the surviving originals remarkably this represents the first large scale publication of the U boat war diaries in any language The book offers a wealth of new information not only with respect to the circumstances of the sinkings from both the Allied and German perspectives but also to the technical environment in which they lived as well as the fate of the crews The entries include background details on the vessels concerned and the men involved with a selection of rare and carefully chosen photos from archives and collections around the world Each entry is itself a compelling narrative but is backed with a list of sources consulted including documents published works and websites A decade in the making this is probably the most important book on the U boat war to be published for many a year

**World War II at Sea** Craig L. Symonds, 2018 Craig L Symonds World War II at Sea offers a definitive naval history of the Second World War presenting the chronology of the naval war from The London Conference of 1930 to the surrender in Tokyo Bay in 1945 on a global scale for the first time

**The Second World War and the 'Other British Isles'** Daniel Travers, 2018-06-28 What is often held to be Britain s finest hour the Second World War was not experienced so uniformly across the British Isles On the margins the war was endured in profoundly different ways While D Day or Dunkirk is embedded in British collective memory how many Britons can recall that Finns were interned on the Isle of Man that enemy soldiers developed British infrastructure in Orkney or that British subjects were sent to concentration camps from Guernsey Such experiences tangential to the dominant British war narrative are commemorated elsewhere in the other British Isles In this remarkable contribution to British Island Studies Daniel Travers pursues these histories and their commemoration across numerous local sites of memory museums heritage sites and public spaces He examines the way these island identities assert their own distinctiveness over the British wartime story and ultimately the way they fit into the ongoing discourse about how the memory of the Second World War has been constructed since 1945

**Torpedo** Roger Branfill-Cook, 2014-08-15 The torpedo was the greatest single game changer in the history of naval warfare For the first time it allowed a small cheap torpedo firing vessel and by extension a small minor navy to threaten the largest and most powerful warships afloat The traditional concept of seapower based on huge fleets of expensive capital ships required radical rethinking because of this important naval weapon This book is a broadranging international history of the weapon tracing not only its origins and technical progress down to the present day but also its massive impact on all subsequent naval wars Torpedo contains much new technical information that has come to light over the past thirty years

and covers all of the improved capabilities of the weapon Heavily illustrated with photos and technical drawings this is a book no enthusiast or historian can afford to miss

**Heritage and Memory of War** Gilly Carr, Keir Reeves, 2015-04-17

Every large nation in the world was directly or indirectly affected by the impact of war during the course of the twentieth century and while the historical narratives of war of these nations are well known far less is understood about how small islands coped These islands often not nations in their own right but small outposts of other kingdoms countries and nations have been relegated to mere footnotes in history and heritage studies as interesting case studies or unimportant curiosities Yet for many of these small islands war had an enduring impact on their history memory intangible heritage and future cultural practices leaving a legacy that demanded some form of local response This is the first comprehensive volume dedicated to what the memories legacies and heritage of war in small islands can teach those who live outside them through closely related historical and contemporary case studies covering 20th and 21st century conflict across the globe The volume investigates a number of important questions Why and how is war memory so enduring in small islands Do factors such as population size island size isolation or geography have any impact Do close ties of kinship and group identity enable collective memories to shape identity and its resulting war related heritage This book contributes to heritage and memory studies and to conflict and historical archaeology by providing a globally wide ranging comparative assessment of small islands and their experiences of war Heritage of War in Small Island Territories is of relevance to students researchers heritage and tourism professionals local governments and NGOs
