Regional Wage Inflation And Unemployment:

Regional Wage Inflation and Unemployment Ron L. Martin, 1981 **Wage Inflation and the Structure of Regional Unemployment** Frank P. R. Brechling, 1972 Contemporary Issues in Economics Association of University Teachers of Economics, 1975 **Regional Economic Policy and Its Analysis** Harvey Armstrong, Jim Taylor, 1978 Economic Policy Issues for the Next Decade Karl Aiginger, G. Hutschenreiter, 2013-03-09 There are several reasons why it has become important to rethink economic policy Out of the European perspective it is the new currency the enlargement towards Central and Eastern European countries the sluggish growth and the end of productivity convergence towards the USA and the insufficient creation of employment From the transatlantic perspective increasing differences in the economic policy and the potential rise of conflicts between Europe and the USA for example in trade competition and health issues are important The current volume touches most but not all of these topics It starts with the overview by Joseph Stiglitz on policy issues Then macroeconomics policy is discussed followed by the problem of an ageing society and European enlargement Differences between Europe and the USA are large in taxation and in the role of public finance The relative competitiveness of countries as well as of Europe will be decided by investments into new technologies and progression towards the Science Based Economy In the final section the role of economists in shaping the economic agenda and giving policy advice is discussed **Agglomeration, Growth, and Adjustment** Thiess Büttner, 2013-11-11 It is dealt with disparities in employment growth unemployment and wages between regional labor markets in Germany First endogenous formation and growth of industry locations due to agglomeration economies is established as a basic source of disparity in employment Then spatial frictions and local wage inflexibility due to central wage bargaining are detected as causes of unemployment disparities Throughout the book theoretical analysis is combined with rigorous empirical testing using a large set of regional data at district level In order to gain and robustify empirical results recent methods in panel econometrics and spatial data analysis are employed An overview on the extent of key regional labor market disparities in Germany is given The book enables to assess our current understanding of the role of locational issues in causing those disparities and thus to understand the basic justification of regional policy Poverty in Russia Jeni Klugman, 1997-01-01 Annotation This book is the first systematic analysis of Russia's poverty and living standards since the country's independence Its primary goal is to quantify the nature and extent of changes in the welfare of Russians during the course of transition and beyond Part 1 establishes the economic and methodological framework within which poverty in the Russian Federation is studied Part 2 comprises a series of chapters that analyze poverty profiles and trends ranging across monetary and non monetary indicators Part 3 addresses selected critical aspects of the system of social support in the impact of public transfers the extent of private interhousehold transfers and public opinion about social problems *ECESIS: An Interregional Economic-Demographic Model of the United States* Paul M. Beaumont, 2018-02-28 Originally published in 1989 ECESIS

consists of 51 regional econometric models one for each state and the District of Columbia and a multiregional demographic model Its distinguishing feature is the linking of sophisticated demographic accounts with sophisticated structural econometric models This book looking at how strong the interactions are between population dynamics and economic activity determines to what extent the simultaneous economic demographic interregional model provides improved projection and simulation properties over regional economic and demographic models used independently of one another *Regional Labour Markets* Manfred M. Fischer, Peter Nijkamp, 1987 Although there is a substantial literature on labour market research most of it ignores the spatial dimension of the labour market A deeper theoretical and empirical understanding of spatial labour markets is a prerequisite for public policy aiming to promote more efficient spatial labour market coordinations and allocation The current state of spatial labour market research is presented in this book by addressing analytical issues by identifying and evaluating current trends on urban and regional labour markets and by comparing the operations of spatial labour markets in various industrialised countries The central focus of the volume is on a cross national comparison of regional labour markets in 15 countries based on a joint research effort of teams from these countries It provides a wealth of information on developments mechanisms bottlenecks policy issues and analytical research efforts in regional labour markets In addition various state of the art reviews and new analytical advances in the areas of e.g search behaviour competition information modelling etc in the field of spatial labour market analysis are presented *The State of Working Britain* Paul Gregg, Jonathan Wadsworth, Dr. Jonathan Wadsworth, 1999 The European Union after Brexit addresses the forces and mechanisms at work during an unprecedented transformation of the European polity How will the EU operate without one of its key diplomatic and international military partners What will happen to its priorities internal balance s of power and legislation without the reliably liberal and Eurosceptic United Kingdom In general what happens when an ever closer union founded on a virtuous circle of economic social and political integration is called into question Though this volume is largely positive about the future of the EU after Brexit it suggests that the process of European integration has gone into reverse with Brexit coming amidst a series of developments that have disrupted the optimistic trajectory of integration Covering topics such as international trade freedom of movement and security relations this book answers a need for a one stop source of strong research based discussions of Brexit **Thematic Encyclopedia of Regional Science** Peter Nijkamp, Karima Kourtit, Kingsley E. Haynes, Zeynep Elburz, 2025-08-11 This thematic Encyclopedia explores the multifaceted world of regional science presenting a systematic and coherent overview of its central topics It highlights the interdisciplinary nature of the field examining the wide range of concepts theories methods and models that shape spatial oriented approaches to the social sciences **Environment & Planning A.** , 1992-07 **Regional Unemployment Conditions and Aggregate Wage Inflation in the United States** Dirck D. E. Fuller, 1988 **Regional Wage Determination in Great Britain** Richard Jackman, S. Savouri, 1991 **Regional Wage Inflation and Unemployment Dynamics in Great Britain** T. Hyclak, G.

Johnes, Lancaster Univ. (GB). Department of Economics, 1990 *Study of the Regional Impact of the Community's External Trade Policy* Commission of the European Communities, 1983 **Interregional Movements and Regional Growth** William C. Wheaton, 1979 *The Socio-economic Impact of Projects Financed by the Cohesion Fund*, 1999 **The Socio-economic Impact of Projects Financed by the Cohesion Fund: Introduction and summary. Literature review. Vector auto-regression models** European Commission, 1999 *Regional Policy Evaluation* Derek Robin Diamond, Nigel Spence, 1983
