The Ultimate Beginner's Guide to

Content Writing John Ajayi, 2020-08-12 This book is all you need to write online content that will convert This is an interview with the author of The Ultimate Beginner's Guide to Content Writing

Q What makes your book different from others in this niche

A Most of the books on content writing focus on SEO SEO is great You need to apply the rules to rank and feature on the first page However how good is a number one position when most of your traffic is bouncing off your pages Three elements must feature in a successfully written post First you must grab attention Second you must stir interest and curiosity Third you must sustain curiosity When a link is broken readers skim your content they hardly click on your affiliate offers and consequently they just leave to other websites So with all the SEO work you're still not converting your traffic This particular aspect that many writers shy away from is what this book is about How to create written content that converts How do you write in a way that will make me want to read every line

Q Can you comment on the structure of the book

A There are nine chapters in the book The first chapter is where the reader gets the reality check about writing for the internet It contains thirteen common mistakes new content writers make Chapter two talks about writing for the internet It poses the six fundamental questions every writer must answer It is the prewriting stage These questions are meant to guide the writer in coming up with amazing written content Chapter three focuses on how to write a blog post It contains simple steps to creating a blog post Each step is discussed extensively Chapters four and five focus on two important aspects Chapter four is on headlines It is possible to rank as number one for a search term and still lose traffic to those in numbers three and four Eventually you will lose that ranking This is because the headline fails to grab attention Chapter five deals with introductions First impressions also matter on the internet You can either gain traffic or lose it with your introduction It is where you ignite curiosity and at the same time state the value proposition what you will talk about subsequently Chapter six deals with long form content It is okay to write 500 word blog posts However research included in the book has revealed that long form content converts more and attracts more shares This chapter helps the reader to construct long form content that will convert Chapter seven focuses on proofreading How do you ensure that your work is error free Most bloggers don't have professional proofreaders to go through their work This chapter teaches you how to proofread your work yourself It also suggests free online tools that can aid proofreading Chapter eight deals with writing for SEO This is a very fundamental aspect However SEO is not as difficult as many make it On page SEO is mostly what we are going to be dealing with This chapter teaches how to write SEO optimized articles that can rank number one on Google Chapter nine is the final chapter It focuses on two aspects copywriting and email marketing The first aspect provides four important steps to writing copies that convert This aspect also applies to email copies It is useful for landing pages web copies and of course email copies A rare aspect that this book also covers is how to land in the Primary folder of the Gmail inbox

Q What set of people will this book benefit the most

A This book will benefit everybody that writes for the internet As long as you create written content this book is for you It is the beginner's manual to creating content that converts There is no niche restriction on this Whether you

write in the medical niche or woodworking niche this book is highly useful Thank you for your time *Complete Blogging Course*, 2025-09-22 Unlock your potential as a profitable content creator with Complete Blogging Course Step by Step Guide to Build Grow Monetize a Successful Blog This all in one handbook is crafted for entrepreneurs freelancers students and small business owners who want to master the art of blogging and earn sustainable income online Packed with high ROI blogging strategies it shows you how to leverage SEO copywriting long tail keyword research affiliate marketing funnels and Google AdSense optimization to generate passive revenue Whether you dream of turning your passion into a side hustle building a personal brand or launching a high CPC niche website this guide walks you through every step from domain selection and mobile friendly design to crafting engaging blog posts that rank on featured snippets **Bloggng for Profit 2019** Naomi Jacobs, 2019-04-07 Want to learn how popular blogs like Sooverthis generate 80k a month in income If you want to start making money with your blog then keep reading Every day more and more people are achieving financial freedom and living their ideal lifestyle by turning to blogging They are abandoning the classic nine to five schedule so they can finally go on vacation whenever they want You ve read all the guides out there but they aren t teaching you how to write good articles or how to turn those articles into money making machines You ve invested hours in setting up your blog only to realize you re using the wrong platform and that you can t even customize it What am I supposed to do Blogging isn t working Shush don t say that Anyone can make money blogging This audiobook is your no bullshit solution It s the answer to all your prayers and I ll show you how easy it is This book contains everything you need to know to turn your blog from zero to profit Other books don t provide you the foundation for setting your blog up for success They give you all these tips to help you improve but if your foundation is shakey it does not matter what you try because it will not work I will walk you step by step through the entire process of starting a blog from scratch and help you achieve your goals of attaining financial freedom With this book you ll discover The best blogging platform that will help you scale your business The number one thing you have to do before you start writing your blog and no it s not just the title The 12 step badass blog checklist to guide you through every step to kick off your blog Important design tips for your blog from a real web designer My seven step formula for writing headlines that convert The 15 best plugins you need to download for your blog Four proven strategies to keep the ideas coming so you never stop writing Where to find resources for your articles so they are honest and reliable I know what you re thinking This seems like a journey I m here to help make it easy Even if you ve never written a single blog post before you ll be able to get your first article up in less than a day Or maybe creating a website is new to you and you only just learned about the word blog today I ve included an extensive list of resources tools and tricks to help get you started AND as a bonus I ve included a FREE mini book titled 25 Effective Blog Post Templates Print out this book as a reference to structure your posts and to help get you writing faster You could even copy and paste and go If you haven t already you should be scrolling up and clicking buy [Bloggng](#) Chris Demmer, 2017-02-22 Your First Blog A Beginner s Guide How To Set It Up
