techniques perspectives and observations that present promising research directions in artificial intelligence The focus of the
AAAI 92 conference is on the re integration of AI as a diverse but coherent whole Accordingly the traditional list of
community based content areas has been replaced by a more neutral set of taxonomies that span the field For example a
paper proposing a new epistemology for representing the physical world based on an analysis of human brain structure
would be described as representation physical world biological The papers collected here represent significant research
contributions to such areas as the principles underlying cognition perception and action in man and machine the design
application and evaluation of AI algorithms and systems and the analysis of domains in which AI systems perform Art
