Encyclopedia of Linguistics explores the varied perspectives figures and methodologies that make up the field The Use of Databases in Cross-Linguistic Studies Martin Everaert, Simon Musgrave, Alexis Dimitriadis, 2009-03-26 This book promotes

the development of linguistic databases by describing a number of successful database projects focusing especially on cross linguistic and typological research It has become increasingly clear that ready access to knowledge about cross linguistic variation is of great value to many types of linguistic research Such a systematic body of data is essential in order to gain a proper understanding of what is truly universal in language and what is determined by specific cultural settings Moreover it is increasingly needed as a tool to systematically evaluate contrasting theoretical claims The book includes a chapter on general problems of using databases to handle language data and chapters on a number of individual projects Note This title was originally announced as including a CD Rom with databases The CD Rom however was replaced by a list of URLs within the book More information as well as links to the databases can also be found here *Linguistics for Non-Linguists* Pearson
