Guide to Expert System Building Tools for Microcomputers Christopher E. Dabrowski,Elizabeth Fong,1991

Knowledge-Based Image Processing Systems Deryn Graham,Anthony Barrett,2012-12-06 Knowledge based or expert systems and image processing have been applied to many domains but although both fields frequently address common application areas they are rarely applied together Often a combined knowledge based system and image processing approach can be highly appropriate and this book provides an insight into both areas and show students how a judicious mix of the two can result in a more effective system The authors include detailed case studies to illustrate the two approaches as well as worked examples and solutions to problems throughout the text Third and fourth year undergraduates and MSc students with some computer science background will find this book invaluable Postgraduates and researchers looking for an introduction to either area or ways to combine the two will also welcome this clearly written and comprehensive text

Managing the Change: Software Configuration and Change Management Michael Haug,Eric W. Olsen,Gonzalo Cuevas,Santiago Rementeria,2001-10-23 C Amting Directorate General Information Society European Commission Brussels th Under the 4 Framework of European Research the European Systems and Soft ware Initiative ESSI was part of the ESPRIT Programme This initiative funded more than 470 projects in the area of software and system process improvements The majority of these projects were process improvement experiments carrying out and taking up new development processes methods and technology within the software development process of a company In addition nodes centres of expertise European networks organisations managing local activities training and dissemination actions complemented the process improvement experiments ESSI aimed at improving the software development capabilities of European enterprises It focused on best practice and helped European companies to develop world class skills and associated technologies to build the increasingly complex and varied systems needed to compete in the marketplace The dissemination activities were designed to build a forum at European level to exchange information and knowledge gained within process improvement experiments Their major objective was to spread the message and the results of experiments to a wider audience through a variety of different channels The European Experience Exchange tUR X project has been one of these dissemination activities within the European Systems and Software Initiative UR X has collected the results of practitioner reports from numerous workshops in Europe and presents in this series of books the results of Best Practice achievements in European Companies over the last few years

Decision Support and Expert Systems Efraim Turban,1993

An Introduction to Expert Systems Robert J. Mockler,Dorothy G. Dologite,1992

Bibliographic Guide to Computer

Science, 1990 **Expert Systems and Applied Artificial Intelligence** Efraim Turban, Louis E. Frenzel, 1992 This book is devoted mainly to applied expert systems It does cover four additional applied AI Topics natural language processing computer vision speech understanding and intelligent robotics Preface Putting Expert Systems to Work in Logistics Mary Kay Allen, Omar Keith Helferich, 1990 *Library and Information Science Annual*, 1989 Journal of ENGINEERING AND TECHNOLOGY MANAGEMENT Michael K. Badawy, 1991 Proceedings American Society for Engineering Education. Conference, 1995 **Expert Systems Applications in Advanced Control**, 1991 *Migrating to Object Technology* Ian Graham, 1995 Many commercial organizations are deciding to adopt object technology To make the transition successfully it is essential to work out a migration strategy covering technical managerial and educational issues This book for software team managers project leaders software engineers and others presents such a strategy and includes a fully enabled CASE tool that automates the process **AI Magazine**, 1988 *Welding Journal*, 1991 **Electronic Data Interchange in Finance and Accounting** Robert J. Thierauf, 1990-05-11 One of the most important trends in information systems today is the increasing use of electronic data interchange whereby paper is replaced by electronic communication for transactions between companies Written for financial and accounting professionals as well as the MIS managers with whom they interface this book offers a comprehensive discussion of the elements of EDI systems that are particularly useful in finance and accounting applications Thierauf introduces the underlying framework for EDI comparing it to the present paper operating mode explains the fundamentals of national and international electronic communication and explores the hardware and software necessary as well as the typical costs involved Numerous real world case studies are included to demonstrate the feasibility development and implementation of EDI systems in finance accounting and banking operations The text s structure follows a logical sequence from concept through application designed to assist the typical end user in the design and installation of an EDI system Part One shows the relationship of EDI systems to various types of management information systems and discusses factors underlying both U S and international systems In Part Two Thierauf investigates the currently available EDI hardware and software and presents a custom designed approach to software In the final chapter of Part Two Thierauf provides in depth treatment of typical EDI applications as well as the design considerations for their development The feasibility of undertaking an EDI system and detailed procedures for developing and implementing such a system form the focus of Part Three Separate chapters cover EDI in strategic planning banking finance and accounting Numerous figures amplify points made in the text In addition to providing a thorough guide to EDI for accounting finance and MIS professionals this volume will also be ideal as a supplemental text for undergraduate and graduate courses in business information systems

Putting Expert Systems Into Practice Robert G. Bowerman, David E. Glover, 1988 This book discusses strategies and tactics for creating robust production applications It addresses those general principles for success that will not become outdated as new products are released and application areas expand Strategies and guidelines are emphasized rather than

extensive documentation of existing implementations The discussion includes a broad analysis of leading and emergent shell tools tool sets environments and symbolic programming languages within the context of examining generic expert system development tool features
