

Stinger Variation #1

This is a design that one of my cellies mass-produced. He could assemble one in about an hour, using parts cannibalized from a couple of double-blade safety razors, a soft tumbler plastic lid, and double insulated wire from an earphone plug.

I'm told that four- to six-blade stingers can be made, though I've never seen any. I'm dubious because of the insulation problems involved.

Warning: Never plug in the stinger unless the blades are in the water, and never remove the stinger from the water while it's plugged in, or it could blow up!

Stinger Variation #2

An interesting stinger design by one of my cellies. Simple and streamlined in appearance but awkward to use, since without the play offered by a flexible wire, it is necessary to hand-hold the tumbler of water while it heats. Caution: Unplug the unit before removing it from the water.
