

## Principles of Developmentally Appropriate Practice

The 12 principles of developmentally appropriate practice, based on research in child development and early learning, highlight the characteristics of children's early development and learning. NAEYC, 2009

**1. Overlapping domains:** All developmental domains i.e., physical, social/emotional, communication, cognitive and adaptive, are important and closely interrelated, continually influencing one another.

*Implication for learning:* Promoting how young children think, feel, move, and interact involves considering and fostering their development and learning across all developmental domains.

**2. Sequenced knowledge and abilities:** Many aspects of children's learning and development follow well documented sequences, with later abilities, skills, and knowledge building on previous ones.

*Implication for learning:* Knowledge of how young children typically develop and learn guides team members in designing learning experiences and interacting with children in a supportive environment.

**3. Development varies:** Each child's development varies across different areas of his/her individual functioning, as well as between individual children.

*Implication for early learning:* Decisions about selecting curriculum, teaching strategies and materials, specialized
