Making Beaubourg A Building Biography:

The Making of Beaubourg Nathan Silver,1997-02-24 This is the story of how France s famed cultural icon one of the most controversial and supremely public buildings of the century was designed and built Nathan Silver s detailed account of the Centre Pompidou still called Beaubourg by its designers and by Parisians takes the form of a fascinating and insightful building biography Not just a book about a building but about the making of a building this fresh heterodox means of inquiry is a holistic reading of the intricate process of creating architecture in contemporary society that brings to light its human story encompassing its stylistic historical technical and social aspects Beaubourg Silver reveals was unlike anything that had ever been built A realization of ideals and aspirations of its architectural generation a rethinking of fundamental precepts of design and construction it took nothing for granted and it has since become one of the most popular tourist attractions in Europe flaunting new principles that other architects have to come to terms with *Disordering the Establishment* Lily Woodruff,2020-05-26 Lily Woodruff examines the development of artistic strategies of political resistance in France in the decades following World War II showing how artists countered establishment ideology challenged traditional art institutions appealed to direct political engagement and grappled with French intellectuals modeling of society **The Story of Architecture** Witold Rybczynski,2022-11-29 An inviting exploration of architecture across cultures and centuries by one of the field s eminent authors In this sweeping history from the Stone Age to the present day Witold Rybczynski shows how architectural ideals have been affected by technological economic and social changes and by changes in taste The host of examples ranges from places of worship such as Hagia Sophia and Brunelleschi s Duomo to living spaces such as the Katsura Imperial Villa and the Alhambra national icons such as the Lincoln Memorial and the Sydney Opera House and skyscrapers such as the Seagram Building and Beijing s CCTV headquarters Rybczynski s narrative emphasizes the ways that buildings across time and space are united by the human desire for order meaning and beauty Engaging and accessible this is a coherent story of architecture s physical manifestation of the universal aspiration to celebrate honor and commemorate and an exploration of the ways that each building is a unique product of individual patrons architects and builders Firm in opinion even handed and rooted in scholarship this book will delight anyone interested in understanding the buildings they use visit and pass by each day **Encyclopedia of Twentieth Century Architecture** R. Stephen Sennott,2004 For more information including the introduction a full list of entries and contributors a generous selection of sample pages and more visit the Encyclopedic of 20th Century Architecture website Focusing on architecture from all regions of the world this three volume set profiles the twentieth century s vast chronicle of architectural achievements both within and well beyond the theoretical confines of modernism Unlike existing works this encyclopedia examines the complexities of rapidly changing global conditions that have dispersed modern architectural types movements styles and building practices across traditional geographic and cultural boundaries *Design Book Review* ,1997 **Archigram** Simon Sadler,2005-06-24 The first book

length critical and historical account of an ultramodern architectural movement of the 1960s that advocated living equipment instead of buildings In the 1960s the architects of Britain s Archigram group and Archigram magazine turned away from conventional architecture to propose cities that move and houses worn like suits of clothes In drawings inspired by pop art and psychedelia architecture floated away tethered by wires gantries tubes and trucks In Archigram Architecture without Architecture Simon Sadler argues that Archigram s sense of fun takes its place beside the other cultural agitants of the 1960s originating attitudes and techniques that became standard for architects rethinking social space and building technology The Archigram style was assembled from the Apollo missions constructivism biology manufacturing electronics and popular culture inspiring an architectural movement High Tech and influencing the postmodern and deconstructivist trends of the late twentieth century Although most Archigram projects were at the limits of possibility and remained unbuilt the six architects at the center of the movement Warren Chalk Peter Cook Dennis Crompton David Greene Ron Herron and Michael Webb became a focal point for the architectural avant garde because they redefined the purpose of architecture Countering the habitual building practice of setting walls and spaces in place Archigram architects wanted to provide the equipment for amplified living and they welcomed any cultural rearrangements that would ensue Archigram Architecture without Architecture the first full length critical and historical account of the Archigram phenomenon traces Archigram from its rediscovery of early modernist verve through its courting of students to its ascent to international notoriety for advocating the disappearance of architecture *Biography* ,1995 High-Tech Heritage Matthias Brenner,Silke Langenberg,Kirsten Angermann,Hans-Rudolf Meier,2024-08-06 High tech Architecture Preserving the Heritage of Innovative Construction The high tech architecture of the 1970s 1990s is typically characterized by the use and exhibition of advanced technologies In terms of appearance these buildings often have innovative fa ades supporting structures accentuated in color and expressively displayed technology systems Unfortunately however the rapid obsolescence of technology has often led to the complete replacement of the very systems that defined the architectural form In 2023 an international conference at ETH Zurich in collaboration with Bauhaus Universit t Weimar explored the question of how best to deal with the structural legacy of technologically innovative architecture This book summarizes the results and provides an overview of the current state of research Current state of research on high tech architecture and its conservation Overview of the opportunities and challenges of high tech buildings New findings on the topic of building within existing structures Also available as a set with the congress volume Denkmal Postmoderne 978 3 0356 2783 1 *France and the Visual Arts Since 1945* Catherine Dossin,2019-01-01 Taking on the myth of France s creative exhaustion following World War II this collection of essays brings together an international team of scholars whose research offers English readers a rich and complex overview of the place of France and French artists in the visual arts since 1945 Addressing a wide range of artistic practices spanning over seven decades and using different methodologies their contributions cover ground charted and unknown They introduce greater

depth and specificity to familiar artists and movements such as Lettrism Situationist International or Nouveau Réalisme while bringing to the fore lesser known artists and groups including GRAPUS the Sociological Art Collective and Nicolas Schffer. Collectively they stress the political dimensions and social ambitions of the art produced in France at the time deconstruct the traditional geography of the French art world and highlight the multiculturalism of the French art scene that resulted from its colonial past and the constant flux of artistic travels and migrations. Ultimately the book contributes to a story of postwar art in which France can be inscribed not as a main or sub chapter but rather as a vector in the wider constellation of modern and contemporary art.

New York Times Saturday Book Review Supplement, 1994-07 The Banham Lectures Jeremy Aynsley, Harriet Atkinson, 2009-11 A collection of essays by leading critics who are inspired by Reyner Banham's revolutionary work. Each critic presents their own analysis of a key issue in design architecture or art. The essays explore topics such as clothes and carpets photography the history of bedrooms how cities grow the architecture of museums dematerialisation and the future of design.

Hanser, 2006 Covering all regions of France from Avignon's Palace of the Popes to Versailles Petit Trianon and all periods of French architecture from the Roman theater at Orange to the Arc de Triomphe in Paris this volume examines more than 60 of France's most important architectural landmarks. Writing in a clear and engaging style David Hanser professor of architecture at Oklahoma State University describes the features functions and historical importance of each structure. Besides identifying location style architects and periods of initial construction and major renovation the cross referenced and illustrated entries also highlight architectural and historical terms explained in the Glossary and conclude with a useful listing of further readings. The volume also offers ready reference lists of entries by location architectural style and time period as well as a general bibliography a subject index and a detailed introductory overview of French architecture. Entries cover major architectural structures as well as smaller sites including everything from the Cathedral of Notre Dame to Metro subway stations. Ideal for college and high school students alike this comprehensive look at the architecture of France is an indispensable addition to any shelf.
