Teaching Learners who Struggle with Mathematics Helene J. Sherman, Lloyd I. Richardson, George J. Yard, 2009 This book was written to give teachers the tools they need to help students go from believing they can't do math to achieving real success and gaining confidence in their math skills This can be accomplished if parents and teachers instead of trying the same thing over and over again focus on how their students learn best To do this the authors present a systematic three step approach on how to assess student's strengths and weaknesses and then plan instruction accordingly The three step plan involves 1 Creating a Data Analysis Sheet DAS 2 Considering the learners strengths and areas of concern 3 Completing a Mathematics Improvement Plan MIP Each chapter deals with a different mathematical topic place value problem solving fractions addition subtraction division decimals time and money etc A number of errors by a variety of students are described using a case study of a typical struggling student The text then explains how teachers can systematically assess the student's work and appropriately diagnose their problems By analyzing and understanding why and how their students make errors teachers can design appropriate ways to correct their mistakes and then promote long term learning through repetition and practice that is meaningful to them This book addresses mathematics education in a manner that encourages positive content growth and attitude for both teachers and students

Planning Curriculum in Mathematics Jodean E. Grunow, 2001 This document is designed to facilitate the state of Wisconsin's Planning Curriculum in Mathematics Planning Curriculum in Mathematics complements Wisconsin's Model Academic Standards for Mathematics and puts into action the standards in the latter document It is hoped that these materials will serve as springboards for contemplation by curriculum planners developers implementers and evaluators as they build district programs This document offers a focus on teaching and learning inclusion of research discussion of issues and practical assistance This book contains 1 an extensive compendium of resources 2 reflects the underlying belief that mathematics must be taught and learned with understanding and 3 is a policy piece Chapters include 1 We Are All Learners of Mathematics 2 Teaching and Learning Mathematics with Understanding 3 Curriculum Instruction and Assessment 4 Designing Professional Development To Promote Understanding 5 Putting the Standards into Action 6 Using Research To Guide Mathematics Program Development 7 Foundations for Consideration in Mathematics Program Development 8 How Does a District Look at Mathematics Program Development and 9 Commitment and Adaptability MM
