*The 4 Stages of Butterflies & Humans* Edward N. Haas, 2013-02-14 This books verbalization of its main theme is perhaps best called an exercise in Depth Psychology In elaborating on the larval vs the metamorphic stages of the human self it proposes first to set forth the origin of the human ego It then moves on to how the larval stage self allows the ego to acquire a dangerous bit of control over the self vs what the self must do to prevent such a disaster It further divides that dangerous bit of control into three levels of intensity At the first level the self lets the ego keep it ignorant of its metamorphic stage At the second level the self lets the ego make it hate its metamorphic stage and to be adamantly opposed to moving on to it At the third level the self lets the ego duplicate the second levels effect and lets the ego add to it some degree of infatuation with criminal behavior In some cases the re sult is an inveterate addiction to mass murder in an attempt to take revenge on everyone and everything for failure to make the ego equal to God from birth
