[Handbook of Pre-Modern Nordic Memory Studies](#) Jürg Glauser, Pernille Hermann, Stephen A. Mitchell, 2018-11-19 In recent years the field of Memory Studies has emerged as a key approach in the Humanities and Social Sciences and has increasingly shown its ability to open new windows on Nordic Studies as well The entries in this book document the work to date of this approach on the pre-modern Nordic world mainly the Viking Age and the Middle Ages but including as well both earlier and later periods Given that Memory Studies is an ever-expanding critical strategy the approximately eighty contributors in this volume also discuss the potential for future research in this area Topics covered range from texts to performance to visual and other aspects of material culture all approached from within an interdisciplinary framework International specialists coming from such

relevant fields as archaeology mythology history of religion folklore history law art literature philology language and mediality offer assessments on the relevance of Memory Studies to their disciplines and show it at work in case studies Finally this handbook demonstrates the various levels of culture where memory had a critical impact in the pre modern North and how deeply embedded the role of memory is in the material itself

Asian Translation Traditions Eva Tsoi Hung Hung, Judy Wakabayashi, 2014-07-16 Translation Studies one of the fastest developing fields in the humanities since the early 1980s has so far been Euro centric both in its theoretical explorations and in its historical grounding One of the major reasons for this is the unavailability of reliable data and systematic analysis of translation activities in non European cultures While a number of scholars in the Western tradition of translation studies have become increasingly aware of this bias and its problems practically indicates that the burden of addressing such deficiencies and imbalances should be on the shoulders of scholars who are conversant with the non Western translation traditions and capable of engaging in much needed basic research This book brings together eleven scholars with expertise in different Asian translation traditions who highlight language and cultural environments as well as perceptions and modes of operation often different from those in the Western tradition Their contributions enhance our understanding of the various elements that influence the transfer of knowledge across cultures and provide invaluable data for the study of translation as a force for cultural development and cultural planning Contributors include Eva Hung Judy Wakabayashi Lawrence Wong Yoshihiro Osawa Teresa Hyun Keith Taylor Rita Kothari Doris Jedamski Raniela Barbaza and Bill Cummings

**Rediscovered Classics of Japanese Animation** Maria Chiara Oltolini, 2024-01-25 Rediscovered Classics of Japanese Animation is the first academic work to examine World Masterpiece Theater Sekai Meisaku Gekij 1969 2009 which popularized the practice of adapting foreign children s books into long running animated series and laid the groundwork for powerhouses like Studio Ghibli World Masterpiece Theater Sekai Meisaku Gekij 1969 2009 is a TV staple

created by the Japanese studio Nippon Animation which popularized the practice of adapting foreign children's books into long running animated series. Once generally dismissed by critics, the series is now frequently investigated as a key early work of legendary animators Isao Takahata and Hayao Miyazaki. In the first book length examination of the series, Maria Chiara Oltolini analyzes cultural significance of World Masterpiece Theater and the ways in which the series pioneered the importance of children's fiction for Japanese animation studios and laid the groundwork for powerhouses like Studio Ghibli. Adapting a novel for animation also means decoding and re-coding socio-cultural patterns embedded in a narrative. World Masterpiece Theater stands as a unique example of this linguistic medial and cultural hybridisation. Popular children's classics such as Little Women, Peter Pan and Anne of Green Gables became the starting point of a full fledged negotiation process in which Japanese animators retold a whole range of narratives that have one basic formula in common: archetypal stories with an educational purpose. In particular, the series played a role in shaping the pop culture image of a young girl, shōjo. Examining the series through the lens of animation studies as well as adaptation studies, Oltolini sheds new light on this long neglected staple of Japanese animation history. *Journal for the Study of British Cultures*, 2003. *Globalization and Cultural Translation* Ning Wang, 2004. This is a study of translation which is put in a broader context of globalisation and culture. The author includes case studies such as the critical and creative reception of such Western writers as Henrik Ibsen and Walt Whitman who have both made significant contributions to China's cultural modernity and literary modernism. *The Translator*, 2001. **CTIS Occasional Papers**, 2002. *The Eighteenth Century* American Society for Eighteenth-Century Studies, 2004.
