Autonomous Weapons Systems and the Responsibility of States Lutiana Valadares Fernandes Barbosa, 2024-10-18

This book reviews whether the existing framework in place can effectively address breaches in the context of Autonomous Weapons Systems AWS. The work endeavors to map out the main gaps and some possible approaches to address them. Part I sets the ground. First it provides a concept of AWS. Next it discusses the accountability gap AWS generate and shows how the international community has put far more emphasis on individual responsibility rather than state responsibility. Part II analyzes the challenges AWS pose to the regime governing state responsibility under international law as codified in the Draft Articles on State Responsibility ARSIWA. In this regard it discusses attribution breach of an international obligation *tempus commissi delicti* multiple states involved in a breach force majeure assurance of non repetition issues related to damage the human machine interaction and its impacts on state s responsibility responsibility for not using AWS weapons review and the duty of due diligence. Part III summarizes the challenges discussed in part II in thirteen issues of concern and presents possible paths *de lege ferenda* to address each of those issues mainly a paradigm shift in attribution and strict liability among seven other more specific proposals. The conclusion reached is that the current regime on the international responsibility of states is insufficient to deal with the new challenges AWS pose. *De lege ferenda* the book argues for following the paths suggested in part III. It also reflects on parts II and III s findings and how many of AWS s challenges to state s responsibility apply to other autonomous devices. Therefore through the case study of AWS this work also opens the broader discussion of the gaps in the international responsibility of states regarding autonomous device misdoings.

The Persecution of Children as a Crime Against Humanity Sonja C. Grover, 2021-06-30. This book addresses age based persecution of children as a crime against humanity in connection with genocide crimes against humanity and war crimes. Persecution with some variation in the elements of the crime is an existing offence under the Rome Statute of the permanent International Criminal Court the statutes of various international criminal tribunals i.e. International Criminal Tribunal for Rwanda the International Criminal Tribunal for the Former Yugoslavia and under the statutes of other international criminal courts i.e. the Special Court of Sierra Leone. The book introduces a completely original concept in international criminal law however in discussing age based persecution of children as an international crime against humanity where i) the particular discrete child collective is targeted as such for international atrocity crimes or ii) individual children are targeted based on their age based group identity as it intersects with other perpetrator targeted characteristics such as gender ethnicity religion etc.

Lawyers Craig Jones,2020-11-26 Over the last 20 years the world s most advanced militaries have invited a small number of military legal professionals into the heart of their targeting operations spaces which had previously been exclusively for generals and commanders These professionals trained and hired to give legal advice on an array of military operations have become known as war lawyers The War Lawyers examines the laws of war as applied by military lawyers to aerial targeting operations carried out by the US military in Iraq and Afghanistan and the Israel military in Gaza Drawing on interviews with military lawyers and others this book explains why some lawyers became integrated in the chain of command whereby military targets are identified and attacked whether by manned aircraft drones and or ground forces and with what results This book shows just how important law and military lawyers have become in the conduct of contemporary warfare and how it is understood Jones argues that circulations of law and policy between the US and Israel have bolstered targeting practices considered legally questionable contending that the involvement of war lawyers in targeting operations enables legitimises and sometimes even extends military violence *International Encyclopedia of Human Rights* Robert L.
